

Press Release from Ethiopia

April 14, 2005

From: E T H I O P I A

Ethiopia is a very ancient country whose rich culture and history go back to pre-historic times. It is one of the countries with the longest history in the world.

Archaeological findings have identified Ethiopia's as one of the cradles of man kind. The discovery of the ancient hominid fossil, called "Lucy", which is 3.5 million years old, is one of the evidences of this fact.

Lucy is here in Japan, at the Ethiopian Pavilion in Global common 5, EXPO 2005 AICHI. Please come and see the human ancestor, and don't miss this opportunity.
