

## Press release of Romania Pavilion

### Month of the stories at Romania Pavilion

July 3<sup>rd</sup> – The July is the month of the stories at Romania Pavilion. From the entrance, different stories are waiting for you, offering various parts of our everyday life, culture, civilization, history, geography, gastronomy...

From the very beginning of your visit at our Pavilion, touch screens in English and Japanese are offering you different information on our country. With only a touch of a finger Romania will become closer. You'll find there real stories about the people and the history of a European country.

In the Pavilion, the 12 hours the day cultural performances are enough reasons to stop for a while. Every performance has its own story. The contemporary dance group features the story of the old traditional rites.

Your visit at Romania Pavilion will become a trip. A very interesting and fascinating one. We are waiting for you...
