

Gifts for the visitors at Romania Pavilion

11 of August · The visitors that entered in Romania Pavilion had the surprise to receive gifts from the representatives of our country. First of all, we are offering at each visitor a leaflet in Japanese with a story of our Pavilion and the main elements we are offering to our visitors. For small children we also have special pins with the logo of the Pavilion · a small brown tree with a yellow flower head · and cubes with images from Romania. You play and you look at amazing images from the four seasons in Romania · mountains, seaside, flowers and hills, Danube Delta, the capital city Bucharest.

Dare and see!
