

Press release of Romania Pavilion

Romania thanks to EXPO 2005 Aichi

23 of September - Romania Pavilion at World EXPO 2005 Aichi, Japan thanks to the support offered by Nagoya International Business Access Center (I-BAC) during the six months of the Exposition. Since the beginning of the EXPO we organized three economic seminars – in Osaka, Aichi EXPO and Tokyo – aiming to offer a better visibility of Romania to the Japanese investors. The Aichi EXPO seminar – “Romania, the future destination of your business” – held on the occasion of our National Day at the World Exposition was attended by around 180 persons, representatives of top Japanese companies.

The feed-backs we get were impressive, mainly from companies active in the field of food industry, pharmaceuticals, small and medium sized enterprises. In that sense, the World EXPO represented for us an excellent framework not only to present our country, but also to mediate a rewarding dialogue between interested companies from Romania and Japan.

We hope, in the coming months, to continue the dialogue and maybe soon, to participate at the opening of a Romanian-Japanese joint venture, in our country or here!

Romania's participation at the World EXPO 2005 Aichi is coordinated by the Romanian Ministry of Foreign Affairs.
