# The 2005 World Exposition, Aichi, Japan Begins March 25, 2005!

In order for the world to have a brighter tomorrow and for our dreams to become reality, the doors will open on the first World Exposition of the 21st century, which will undertake new challenges. The wisdom and power of all the people of the world will be brought together, and a great movement that seeks a truly harmonious future society will unfold. The EXPO will be filled with passion, smiles, activity, enlightenment, and energy. The lead actors in this drama will be each one of us sharing the same inspiration.

**Nagakute and Seto Areas**  
The Nagakute Area celebrates the past and future of the Earth, technology from the traditional to the cutting edge, and the culture of the entire world. This is a place for global exchange. The Seto Area is the spiritual heart of EXPO 2005 and is a place where people can interact closely with nature and with each other. These two areas will create the appeal of EXPO 2005, the first World Exposition of the 21st century.

**Global Loop: Epoch-making Idea**  
The venue for EXPO 2005 exists in harmony with nature. The centerpiece of the venue is the Global Loop, the first trial of an elevated corridor in the history of World Expositions. The Global Loop allows landforms to remain unaltered, and it facilitates barrier-free movement throughout the venue. The Global Loop offers a view of the entire venue, and it will be a place for deeper person-to-person interaction.

# Bringing a Smile to the Face of the Earth

Over its long history, the Earth has been home to all kinds of living creatures. We wish to construct a stage that will bring a smile to the face of the Earth, the planet we know and love.

## The Most Thrilling and Moving Symbol Pavilion

### Global House

Theme: Knowing and Loving  
—The Story of Our Earth

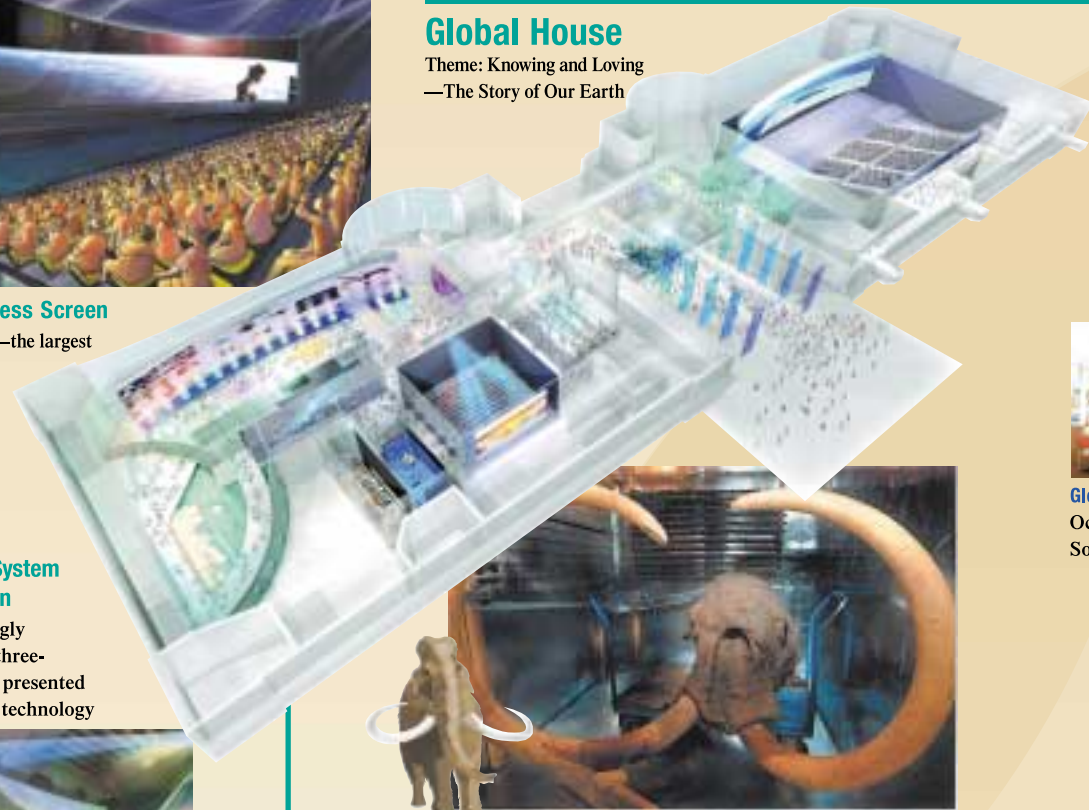

#### Ultrawide Seamless Screen

A 2,005-inch screen—the largest in the world

#### Ultrafine Image System Super High Vision

Experience amazingly clear pictures and three-dimensional sound presented by next-generation technology

#### Pavilions of the World's Treasures Gathered from Around the World

Don't miss the world's first display of frozen woolly mammoth from Siberia!

## The Future of Urban Space

### Bio-lung

Bio-lung is a 150-meter-long, 12-meter-high wall filled with flowers and plants. This large-scale, cutting-edge object represents the future of urban space.

### Nature Experience Program

The Program will offer participants the opportunity to think about "Nature's Wisdom," while experiencing four characteristic forms of nature at site. "Forest Nature school," "Village Nature School," "Growing Village," "Satsuki and Mei's House."

"Forest Nature School"

"Satsuki and Mei's House" ©Nibariki / Tokuma Shoten

\* The number of visitors will be limited in order to protect the forest.

# Bringing Dreams to the Heart of the Earth

People are happy when one of their dreams comes true. Let's talk about a wonderful dream together. This is a stage where the dreams of all the people of the Earth come true.

## The Main Stage for the Grand Intercultural Symphony

### Global Commons

The six unique Global Commons will bring together more than 120 countries and international organizations, resulting in a Grand Intercultural Symphony that transcends borders and cultural differences.

Global Common 6  
Oceania and Southeast Asia

Global Common 1  
Asia

Global Common 2  
North, Central and South America

Global Common 5  
Africa

Global Common 4  
Europe

Global Common 3  
Europe and the Mediterranean

\*Regional allocation may vary according to space availability.

## 185 Days of Continuous Action on a Spectacular Stage

### EXPO Plaza

An open stage that features the newest type of large-screen to transmit the excitement of the EXPO 2005 to the world.

### EXPO Dome

Performances by entertainers from around the world!

### EXPO Hall

Fun events every day, such as the National Days of participating countries!

### In The Evening at Koi-Pond

A fantasy world created by the world-renowned artist Robert Wilson

# Bringing Sparkle to the Eyes of the Earth

Japanese culture brilliantly combines traditional techniques with cutting-edge technology. This is a stage to share these wonders with the people of the world and the next generation.

## A Cutting-edge Message from Host Country Japan

**Earth Room** (tentative name)  
Visitors can experience the wealth of nature and the interaction between nature and humans on a perfectly spherical screen.

## Japan Pavilion Nagakute

Welcome to a journey toward the prosperity of the future. Waiting for you is the world's first image experience from the viewpoint of the inside of the Earth.  
※The electricity is provided entirely by new forms of energy.

## Aichi Pavilion Nagakute

Experience and enjoy the marvels of Aichi's craftsmanship in the environmental age at the pavilion of the host prefecture. (The building on the left in the above picture)

## Chubu Community for Millennial Symbiosis

Goods that will last for 1,000 years! The wisdom and techniques of the Central Japan region will be brought together for the benefit of generations of children who will live 1,000 years in the future.  
(Building at right in above picture)

## EARTH TOWER NAGOYA CITY

Experience the wonders of light, wind, and water. Visitors will be refreshed by the carefree passage of time.

## Experience the Latest and Most Amazing Technology

### Corporate Pavilions

#### Wonder Circus-Electric Power Pavilion

Visitors experience eight scenes representing "The Wonderful World of the Earth, Humans, and Dreams" as they are taken around by a train-like ride.

#### TOYOTA GROUP PAVILION

Transportation of the future is expressed in a compelling performance.

#### JR Central Pavilion

See the actual superconducting Maglev vehicle. Visitors can experience this new technology via powerful 3D images.

#### Hitachi Group Pavilion

Visitors can touch nature in surprising and moving ways.

**Morizo & Kiccoro Exhibition Center**  
A time-share pavilion that will develop the themes of EXPO 2005

#### Gas Pavilion

Surprising and entertaining live entertainment shows will be held here based on the theme of "Flame."

#### Mountain of Dreams

Four zones will be presented here, including the first-ever experiential image space at a World Exposition, which will be led by animation master Mamoru Oshii.

#### Mitsubishi Pavilion @Earth

A special-effects theater contains many of the mysteries of nature and will jolt visitors' imaginations.

#### JAMA Wonder Wheel Pavilion

This Ferris wheel will stand 50 meters above the venue. Visitors can see the past and future of people, cars, and the Earth.

#### MITSUI-TOSHIBA Pavilion

This pavilion will provide entertainment that everyone can enjoy, based on the theme of "The Earth and the Radiance of Life."

**ROTARY INTERNATIONAL EXPO FRIENDSHIP CENTER**

# Giving Shape to the Voice of the Earth

Citizen of the world will play the leading role at EXPO 2005. This is a stage on which the people of the world will freely exchange their ideas and where an attractive global society will be created.

## Creating a New History in the Rich Forest of the Seto Area

## Citizens' Pavilion & Kaisho Plaza

This is the first project in the history of World Expositions to involve citizen participation. Global issues will be addressed using the power of people.

## Japan Pavilion Seto

Rediscover the wisdom, technology, and spirit of the Japanese who have long lived with nature.

## Satoyama Trail Zone

Visitors can experience old kilns that tell the history of ceramic ware and also enjoy the interaction between humans and nature found in *satoyama*.

## Aichi Pavilion Seto

Visitors will be moved to rethink the relationship between humans and nature by seeing various types of living creatures.

## A Stage for Sharing Ideas from Around the World!

## NGO Global Village

Visitors can take part in entertaining and educational programs alongside NPOs and NGOs from Japan and around the world.

## Wanpaku Treasure Island

A place where the whole family can have fun!  
Theme: Living Wisdom, Living Power  
—Rediscovering Vitality
