(13) Rigging			
(14) Other			

### ◇ To Event Organizers

The objective of the Procedures for Holding Special Events in EXPO Hall (hereinafter referred to as “Procedures”) is to ensure smooth operations in all stages, from planning to implementation, of special Events in EXPO Hall.

You are requested to fully understand these Procedures before planning your Event. Please note that information provided by these Procedures is as of November 2004. Any modification or change hereto will be communicated to you as the occasion arises.

There are various restrictions in holding special Events in EXPO Hall. You are requested to fully understand these Procedures and relevant regulations and guidelines established for the Exhibition, and to organize and implement your event in consideration of safety for visitors not only to your event, but also to the entire Exhibition.

In these Procedures, various programs and events held in EXPO Hall are referred to as “Events”; the Japan Association for the 2005 World Exposition, as “the Organizer”; EXPO Hall users (performers, staff of events, secretariat/agency and other parties involved in the events), as “Event Organizers”; and all operations, from carry-in, and event administration to carry-out that will be performed by Event Organizers in holding their Events, as “Event Operation.”

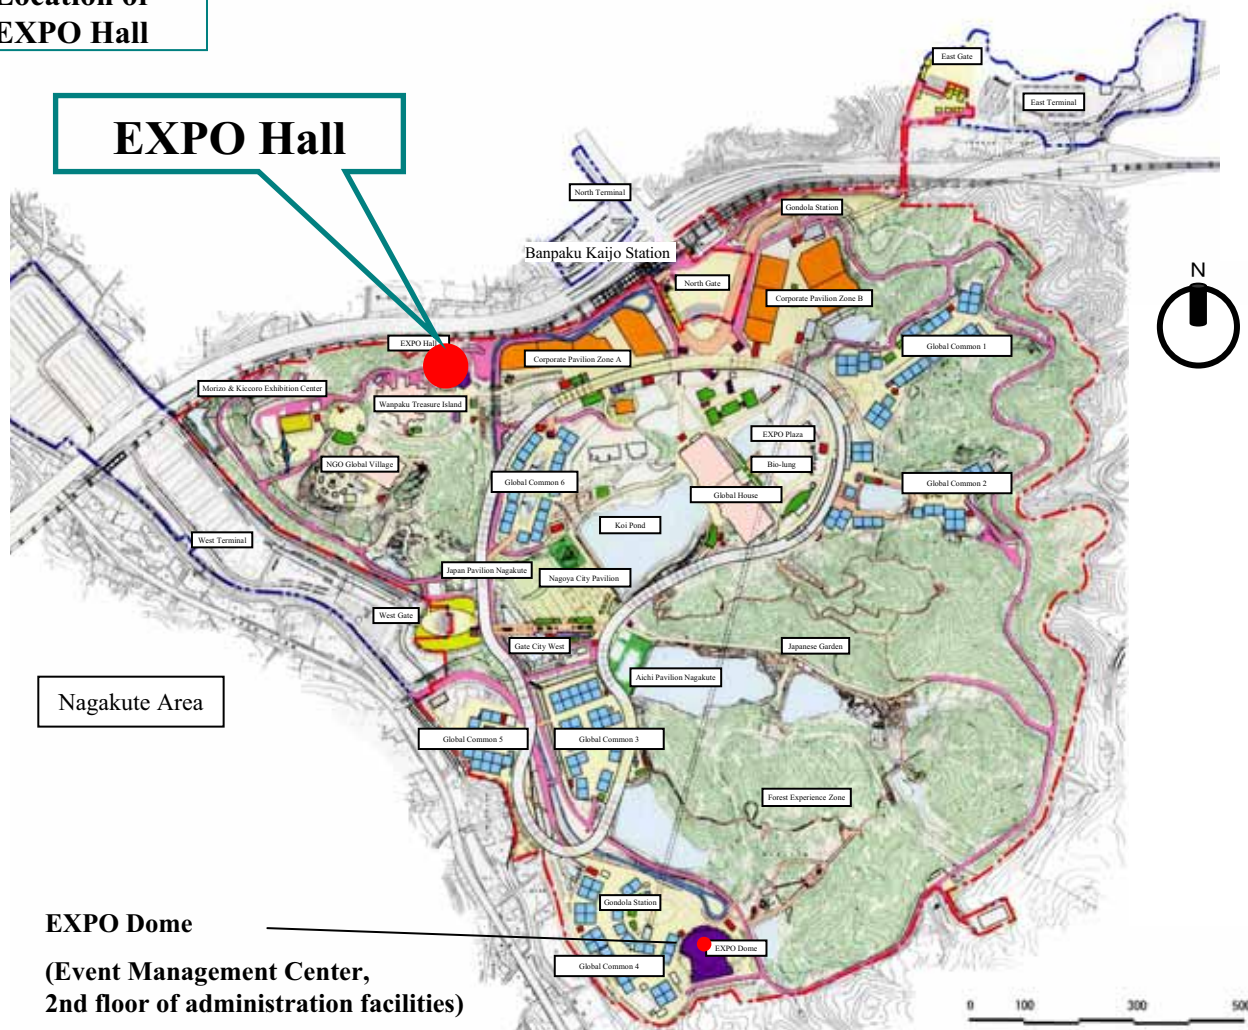

- 1) Event Organizers shall carry out, on their own responsibility, activities necessary for holding their Events, from planning to Event Operation. In all such activities, Event Organizers shall follow the principle of restoring the Hall to its status quo, and shall pay for stains or other damage to, or loss of, any equipment, installations and facilities.
- 2) In principle, Event Organizers shall submit their event planning documents to the Organizer in advance. To check and confirm the content of event planning documents with the Organizer, Event Organizers shall participate in preparatory meetings for arranging their Events (Event Meetings). The Organizers reserve the right of final approval of the Event Organizers final event plan. Event Organizers may be required to make arrangements with police or other authorities concerned.
- 3) Before carrying out various activities (Event Meetings, preliminary examination of the Site, Event Operation etc.) within the Exhibition Site, Event Organizers must apply for Accreditation Passes and other permits.
- 4) Expo Hall hours shall be from Exhibition Site opening to sixty minutes before closing.  
\*Events shall end around 75 minutes before Exhibition Site closing.
  - (a) From March 25 to April 25  
Expo Hall hours: 9:30 - 20:30 (Event closing time: 20:15)\* Exhibition Site hours: 9:30 - 21:30
  - (b) From April 26 to September 25  
Expo Hall hours: 9:00 - 21:00 (Event closing time: 20:45)\* Exhibition Site hours: 9:00 - 22:00
- 5) Event Organizers shall take security measures for Event Operation, assuming various situations. Event Organizers are also required to take out necessary insurance policies.
- 6) With priority consideration given to the environment (air quality, noise, vibration, water quality, lights, animals, plants etc.), the Exhibition aims to propose ways of working out solutions to environmental problems that are now spreading on a global scale, through various activities and programs. Event Organizers shall comply with restrictions relating to environmental issues.

- 7) In line with the project concept of Grand Intercultural Symphony, the Exhibition seeks to become a place for the participation of and exchange among diverse groups of people, irrespective of nationality, age or sex. To realize this, the Organizer is promoting barrier-free arrangements throughout the Exhibition Site, particularly for the elderly and handicapped. In organizing and operating their Events, Event Organizers are required to make every effort for barrier-free arrangements not only for participants in their Events, but also for visitors to the Exhibition.
- 8) In EXPO Hall, Events with any of the following contents and activities are prohibited:
- (a) Content that offends public order and morals
  - (b) Content that contravenes law, treaty, or the like
  - (c) Content that may cause a security problem
  - (d) Political or religious inflammatory comments
  - (e) Illegal slander against a country, organization or company
  - (f) Content that may pose a danger to Exhibition visitors, facilities etc.
  - (g) Content that significantly deviates from the proposed plan
  - (h) Content that may adversely affect the environment (see page 51)
  - (i) Activities designed to publicize companies, products etc. (excepting instances approved by the Organizer)
  - (j) Sales of goods, soliciting of donations and transfer of money (excepting instances approved by the Organizer)
  - (k) Other content adjudged inappropriate by the Organizer
- 9) Event Organizers shall comply with these Procedures. If you have any questions regarding the content of these Procedures, contact the Organizer.

## 02: Location of Event Facility

### Location of EXPO Hall

### EXPO Hall

Nagakute Area

EXPO Dome

(Event Management Center,  
2nd floor of administration facilities)

Stage side view

**(1) Framework for coordination in planning process**

A liaison framework for coordination between the Organizer and Event Organizers wishing to hold events in EXPO Hall, and major activities to be carried out by these two parties in the planning process, are shown in the figures below.

Party	Major activities
Event Organizers	Submission of event planning documents
	Submission of application documents
	Meetings for arranging proposed event
Event Management Center	Explanation and confirmation of application documents
	Provision of materials on EXPO Hall
	Meetings for arranging proposed event

### (2) Schedule

Schedule and major activities of the planning process are as follows:

#### **Receipt of Expo Hall Procedures and Event Application Forms**

The Organizer sends to Event Organizers these Procedures, which set forth rules and procedures for use of EXPO Hall and provides information on the facilities and equipment available there, as well as Application Documents Forms #1-7 (see page10)

**Step 1: Submission of completed Event Summary Sheet (Form 1)**  
**Deadline : At Event Organizers earliest convenience**  
**(No later than 3 months prior to proposed event day(s))**

- 1) After understanding the content of these Procedures and working out the details of their events, Event Organizers shall submit a completed Event Summary Sheet (form#1) at their earliest convenience.
- 2) Since Event Summary Sheets are designed for use by the Organizer for preliminary examination of the scale of event, media information , and other elements of the proposed event, Event Organizers are required to fill out the sheet as completely as possible, even if a final decision has not been made on some of the items.
- 3) After submission of Event Summary Sheets, Event Organizers may make changes to their plans. Inapplicable items may be left blank.
- 4) If you have any questions regarding the filling out of the Event Summary Form, please contact the Organizer.

**Step 2: First Meeting**  
**Submission of Event Application Forms and Event Planning Documents**  
**Deadline: No later than two months prior to proposed event day(s)**

The First Meeting is an opportunity for The Organizer and Event Organizers to discuss the The Basic Event Plan. If Event Organizers are unable to attend the First Meeting please notify the Organizer and make arrangements for an alternate method for the submission of the Event Applications and Event Planning Documents (e-mail, fax, express-mail, etc).

- 1) Event Organizers are required to submit completed Event Application Forms (#2-7 (b-g)) and submit Event Planning Documents (h-m) at the First Meeting no later than two months prior to event day(s). (see page 10)
- 2) Depending on the content of the proposed event, we may bring forward the date of the First Event Meeting.
- 3) Event Organizers are encouraged to include any materials that will help explain the status of preparations or contents of their events.
- 4) The Organizer will review submitted documents and may approve, adjust, or request that the Event Organizers modify the Event Plan.
- 5) Organizers will check and adjust Event Operation schedule (for all stages from carry-in, actual performance, to carry-out), and instruct Event Organizers to make corrections or changes to schedule if necessary.

- 6) Confirm content of proposed event , and check event's written procedure, script etc.
- 7) Check arrangement and schematic drawings of lighting, audio, video and stage equipment and fixtures, and instruct Event Organizers to make changes to such plans.
- 8) Check plans for using dressing rooms and permanent equipment and fixtures.
- 9) Check content of security and visitor guidance plans.
- 10) Check plans relating to information and public relation activities (regarding signboards handouts,exhibits, media etc.)
- 11) Review the list of carry-in equipment and approve, prohibit or give guidance on certain items. If approved, reaffirm or give guidance on procedures for submitting to local authorities concerned required applications or notification for holding proposed event. For Example: permit applications for carry-in of dangerous objects, use of open flames, possessions of firearms and swords

### **Step 3:**

### **Second Meeting**

#### **Submission of Finalized Plans**

**Deadline: One month prior to proposed event day(s )**

The Organizer will conduct a final check on the content, operating plan, and other matters relating to implementation of the event. Event Organizers shall submit a Final Event Plan including all documents to which they were instructed to make changes or corrections, as well as those documents and materials that may have been requested for additional submission by the Organizer. If Event Organizers are unable to attend the Second Meeting please notify the Organizer and make arrangements for an alternate method for the submission of the Final Event Plan.

- 1) Determine Event Operation schedule.
- 2) Confirm content, written procedure and script (final draft) of proposed event.
- 3) Confirm arrangement and schematic drawings (final drawings) of lighting, audio, video and stage equipment and fixtures.
- 4) Confirm use of inflammables and details of special effects equipment to be used.
- 5) Confirm plans for using dressing rooms, installations and equipment etc.
- 6) Confirm security and visitor guidance plans.
- 7) Confirm copies of receipts of applications for necessary permits.
- 8) Confirm or instruct to modify plans relating to information and public relations activities.

\* Major changes in the Event Plan by the Event Organizers must be submitted by the second meeting. Failure to do so may jeopardize the ability of the Organizer to accommodate the requests of the Event Organizer.

**Step 4: Third & Final Meeting**  
**Final Confirmation and Issuance of Passes and Permits**  
**Deadline: To be held 10-14 days prior to proposed event day(s)**

Event Organizers are required to have a final meeting with the Organizer at least 10-14 days prior to the proposed event days where a final confirmation of the Event Plan will be made. Event Organizers must contact the Organizer and make arrangements for a representative to be present in the case of unforeseen circumstances in which the Event Organizers main contact person may not be present.

- 1) Issue passes and permits valid for Event Operation days.
- 2) Reconfirm all aspects of the Event Plan.
- 3) Confirm all necessary permits from local authorities
- 4) Confirm the requisite insurance for Event Organizers

**< Notices to participants in Event Meetings >**

- 1) Organizers are asked to keep the number of meeting participants to a minimum.
  - 2) Event Meetings will be held in the Event Management Center (on the second floor of administration facilities in EXPO Dome) within the Exhibition Site. To enter the facilities participants must use the entrance door for staff and performers (see pages 3&4)
  - 3) For procedures regarding Accreditation Passes needed when entering the Exhibition Site to attend Event Meetings, refer to “Admission and Carry-in/Carry-out” on page 37.
  - 4) For Event Meeting participants, entry of vehicles into the Exhibition Site is not allowed. Therefore, only Accreditation Passes will be issued to participants.
  - 5) Participants in Event Meetings must enter the Exhibition Site all together, and must exit the Site all together immediately after each meeting.
  - 6) Participants will be required to provide receipts for documents and passes they receive at Event Meetings. The representative of participants must bring his/her seal. In the case of foreign Event Organizers, however, a name card and signature of the representative may substitute for a seal.
  - 7) The date and time of each Event Meeting will be communicated from the Organizer’s side.
  - 8) Entry to the Exhibition Site outside the fixed date and time will not be permitted.
  - 9) Event Organizers shall be responsible for communication, transportation and other expenses incurred in preparatory coordination, application procedures and operation of their events.
  - 10) When entering the Exhibition Site, participants may undergo security checks as circumstances demand. Participants must refrain from bringing with them any articles whose transport into the Exhibition Site is prohibited.
- \* The above schedule is tentative. Event Meeting frequency and timing may change depending on the content of the proposed event.
- \* The Organizer shall communicate the date and place of each Event Meeting.
- \* Please contact the Organizer should you have any questions regarding the above schedule or other matters.

**(3) Documents to be submitted**

Event Organizers shall submit three types of documents: Event Application Form, Event Planning Documents, and Accreditation Pass/Permit Applications

1) Event planning documents (\* “O” in the remarks column indicates that the document must be submitted;

■ Due date: At Event Organizers earliest convenience (No later than three months prior to proposed event day(s))

Document	Description	Form/Paper size	No. of copies	Remarks
(a) Event Summary Sheet	Outline of the proposed event, including title, content, and date(s) and time of event, and names of host organization and contact person	Hall Form No. 1	5	O

■ Due date: two months prior to proposed events day(s)

Document	Description	Form/Paper size	No. of copies	Remarks
(b) Event Description Sheet	Descriptions of event content, performers, stage effect procedures etc.	Hall Form No. 2	5	O
(c) Event Operation Schedule	Timetable for all operations involved in holding event, from carry-in to carry-out	Hall Form No. 3	5	O
(d) Plan concerning Display of Names etc.	Descriptions of exhibits, printed matter and other items that display corporate or exhibition symbol marks, logotypes, or mascot characters	Hall Form No. 4	5	O
(e) Dressing Room Use Plan	Overview of dressing rooms to be used and purpose of their use	Hall Form No. 5	5	O
(f) List of Carry-in Equipment and Materials	List of names, specifications, numbers etc. of equipment and materials to be carried into Event Facility (such as lighting, audio and stage equipment, and musical instruments)	Hall Form No. 6	5	O
(g) Application for Use of Permanent Equipment and Fixtures	List of Event Facility's permanent equipment and fixtures to be used	Hall Form No. 7	5	O
(h) Event script	Document shall provide words for master of ceremonies, stage direction, performers' exits and entrances, cues, changes etc.	A4 Planning Doc	5	O
(i) Lighting arrangement and schematic drawings	Drawings indicating stage lighting equipment layout, wiring etc.	A3 Planning Doc	5	O
(j) Audio arrangement and schematic drawings	Drawings indicating audio equipment layout, wiring etc.	A3 Planning Doc	5	O
(k) Stage arrangement and schematic drawings	Drawings indicating layout of areas (stage, arena etc.) used for proposed event and arrangement of installations and fixtures	A3 Planning Doc.	5	O
(l) Specification drawings	Drawings indicating details and specifications of installations (including signboards and other signs)	A3 Planning Doc.	5	O
(m) Samples	Samples of handouts, seat designation tickets etc.	Planning Doc		O

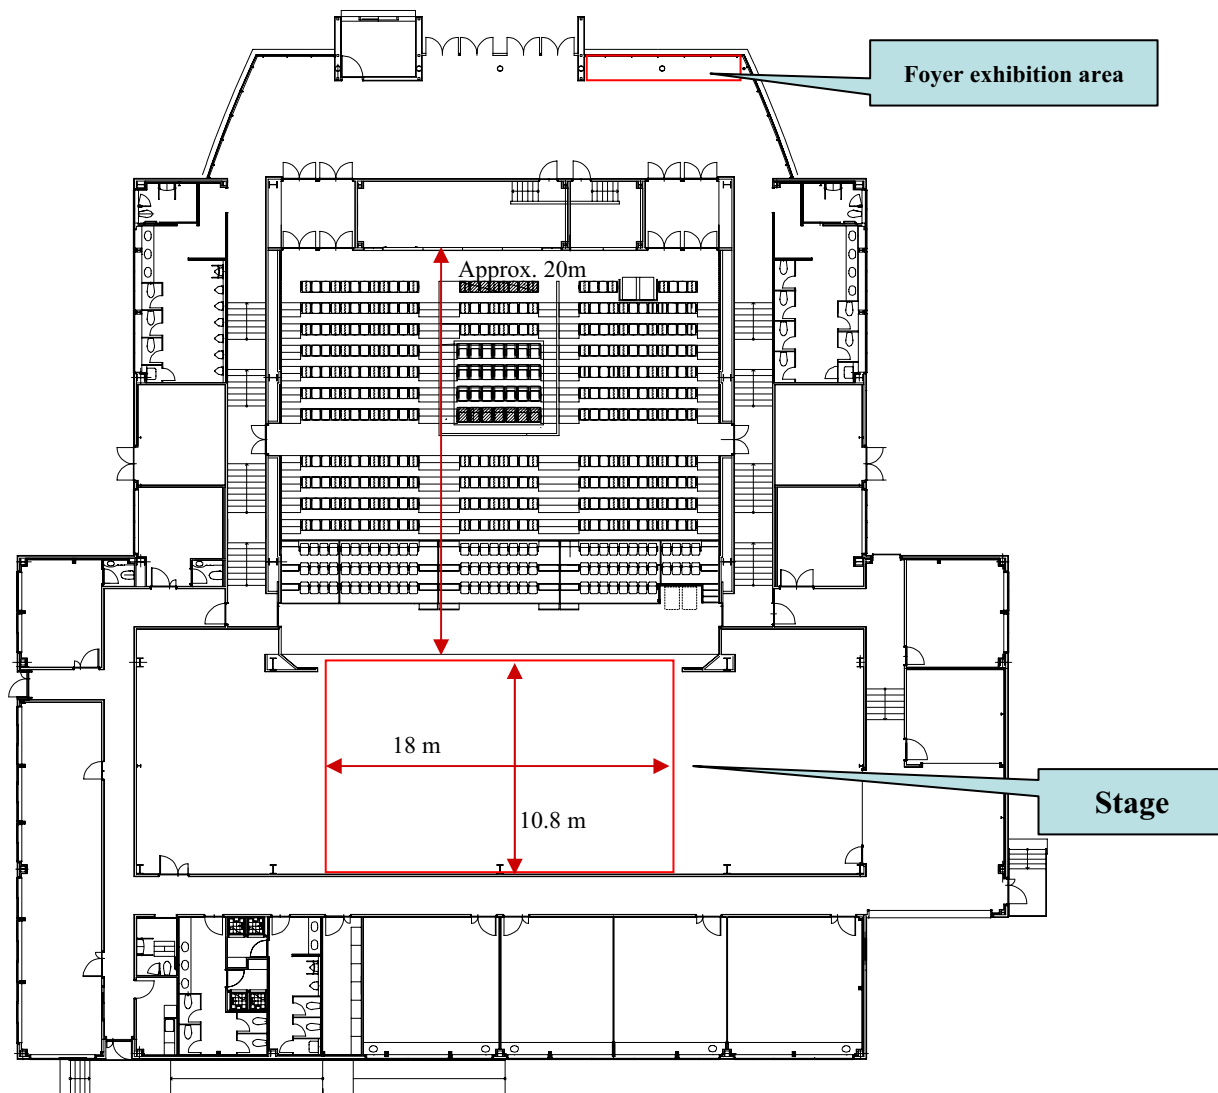

2) Accreditation Pass/ Permits Application ( “O” in the remarks column indicates that the document must be submitted)

■ Due date: one month prior to proposed event day(s)

Document	Form	Remarks
(a) Operation and security plans		O
(b) Accreditation Pass	Electronic application form (fill out via computer)	O
(c) Vehicle Pass	Electronic application form (fill out via computer)	O
(d) Use of radio equipment		O
(e) Copyrighted works		O
(f) Permits from local authorities	Copies of said permits	O

### (1) Available locations and spaces

The areas framed in red in the diagrams below are available for placing events.

\* Available area in stage wings is limited by presence of sets, audio and lighting equipment etc.

Please contact the Organizer for more detailed specifications when necessary in planning performances.

### (2) Stage installation instructions

- 1) Stage floor has load limit specified below. Please observe limit when installing heavy objects.
  - Stage: Load limit, 500 kg/m<sup>2</sup>; flooring material, wooden boards
- 2) Plan stage carefully so as to minimize number of seat locations from which performance is partially obscured.

**(3) Foyer exhibition area**

Part of the foyer can be used for the following purposes:

- 1) Placing exhibits
- 2) Distributing performance information programs and handouts
- 3) Handing out and collecting devices provided by the Event Organizers, such as simultaneous interpretation equipment and hearing aids
- 4) Cloak space
- 5) Other uses approved by the Organizer

- \* Foyer exhibition area: Load limit, 300 kg/m<sup>2</sup>; flooring material, composition tiles
  - When using the foyer area, please contact the Organizer in advance, as the floor surface may require protection, depending on exhibits or construction methods.
  - As always-available exhibition furniture, long rectangular tables, folding chairs, belt stanchions and display wagons are available for use. (For details, see page 18.)

The areas framed in red in the diagrams below are available for the above purposes.

\* The foyer is intended to provide visitors with space to stand around. When using the framed areas in the foyer, please consider these visitors.

Event Organizers must bear full responsibility for use of the exhibition area, including:

- Giving directions to visitors, planning visitor traffic, and ensuring safety
- Ensuring the security of exhibits and other goods
- Handing out and collecting goods and devices

## Instructions on use of permanent equipment (sets, lighting, video and audio equipment) and fixtures

- 1) Equipment not on the list should be procured by the Event Organizers.
  - 2) Listed permanent equipment and fixtures are available for free of charge.
- \* Note that listed equipment is subject to change.

### (1) List of audio equipment and specifications [1]

No	Equipment Name	Specification/ Model No.	Qty.	Unit	Note
01	FOH digital mixing console (48ch)	YAMAHA PM5D	1	Set	Including controls,cables,etc
02	CD player	TASCAM CD450	2	sets	
03	MD recorder	TASCAM MD-350	2	sets	
04	FOH peripheral equipment		1	set	Control room
	①Digital processor	YAMAHA DME64N	1	unit	
	② Digital processor	YAMAHA DME24N	1	unit	
	③Network HUB	Cisco Systems WS-C2950G12-E	3	units	
	④Word clock distributor	Rosendahl Nanocyncs	1	unit	
	⑤Power control unit	YST	1	unit	
05	MONI digital mixer	YAMAHA PM5D	1	set	Including controls,cables,etc (left wing)
06	Digital processor & Power amp rack		1	set	Set in wing
	①Digital processor	YAMAHA DME64N	2	units	
	②Word clock distributor	Rosendahl Nanoclocks	1	unit	
	③Network HUB	Cisco Systems WS-C2950G12-E	3	units	
	④AD combater	YAMAHA AD824	2	units	
	⑤DA combater	YAMAHA DA824	2	units	
	⑥Amp control unit	YAMAHA ACU16-C	1	unit	
	⑦Power amp	YAMAHA PC9500N	2	units	
	⑧Power amp	YAMAHA PC4800N	6	units	
	⑨Power control unit	YST	2	units	
07	Power amp rack		1	set	Set in wing
	①Power amp	YAMAHA PC4800N	2	units	
	②power amp	YAMAHA PC3300N	6	units	
08	Main speaker		2	units	Stage trusses & stage
	①2 way speaker	JBL AM4212/64	12	units	
	②Sub-woofer speaker	JBL ASB6128	2	units	

## (1) List of audio equipment and specifications [2]

No	Equipment Name	Specification/ Model No.	Qty.	Unit	Note
09	Side-fill speaker		2	sets	Stage
	(1) 2 way speaker	JBL AM4215/64	4	units	
	(2) Other peripheral devices		2	sets	Platforms, belts, cables etc.
10	FB speaker		1	set	Stage
	(1) FB speaker	Turbosound TXD-12M	12	units	
	(2) Powered speaker	MS300	4	units	
	(3) Other peripheral devices		1	set	Stands, cables etc.
11	Control room monitor speaker		1	set	Control room
	(1) Powered speaker	YAMAHA MSP10STUDIO	2	units	
12	Wireless tuner rack		1	set	Mobile equipment
	(1) Wireless tuner	SHURE U4D-ABJ	3	units	
	(2) Antenna distributor	SHURE UA845US	1	unit	
	(3) Antenna booster	SHURE UA830WB	2	units	
13	Wireless microphones		1	set	Mobile equipment
	(1) Wireless microphone (hand-held)	SHURE U2/58-A24	6	units	
	(2) Wireless microphone (two-piece type)	SHURE U1-A24 + WL51	6	units	
14	Microphones				
	(1) Dynamic microphone 1	SHURE SM58-LCE	15	units	
	(2) Dynamic microphone 2	SHURE SM57-LCE	10	units	
	(3) Condenser microphone 1	AKG C451B	4	units	
	(4) Condenser microphone 2	AKG C414B-ULS	4	units	
15	Microphone stands				
	(1) Floor boom type	K&M ST210/2B	20	units	
	(2) Floor short boom type	K&M ST259B	10	units	
	(3) Floor type	K&M ST200	20	units	
	(4) Tabletop type	SUGI-PRO DS-30M	10	units	
16	Intercoms		1	set	
	(1) Master station	Clear-COM MS-440	2	units	
	(2) Remote station with speaker	Clear-COM KB-223	6	units	
	(3) Belt pack station	Clear-COM RS-501	14	units	
	(4) Head set	Clear-COM CC-100	16	units	
17	Others				
	(1) Direct box	BSS AR-133	6	units	
	(2) Headphone	SONY MDR-CD900ST	2	units	

## (2) List of lighting equipment and specifications

No	Equipment Name	Specification/ Model No.	Qty.	Unit	Note
01	General light control console	ETC Express 72/144	1	unit	
02	Portable dimmer (light controller)	ETC Sensor Portable Packs	7	units	
03	PAR light	PAR64 (black)	70	units	With hanger
04	Fresnel lens spot	Matsumura FX-8	54	units	
05	Horizontal light (for upper) 300 W	Matsumura UH3-300H	11	units	
06	Horizontal light (for lower)	Matsumura LH3-8-300H	11	units	
07	Xenon pin 2 kW	XENON	3	units	With rectifier
08	Flat convex lens, spot	Matsumura CX-8M	88	units	With hanger
09	Stand	Base plate type, SM2	20	units	
		Tripod stand (SK2) Marushige	10	units	
10	Cables		1	set	For extension, conversion, branching etc.
11	Color filters		1	set	
12	Shooting pole	L = 7 m	2	units	
13	Batten for lighting				
	(1) Lighting 1 suspension light	21000 mm/48.6 mmΦ	1	unit	Hanging load 220 kg
	(2) Lighting 2 suspension light	21000 mm/48.6 mmΦ	1	unit	Hanging load 220 kg
	(3) Lighting 3 suspension light	21000 mm/48.6 mmΦ	1	unit	Hanging load 220 kg
	(4) Lighting upper light	21000 mm/48.6 mmΦ	1	unit	Hanging load 220 kg
14	Side ladder				
	(1) Left stage front	W1200 mm·H1200 mm 48.6 mmΦ	1	unit	Hanging load 300 kg
	(2) Left stage center	W1200 mm·H1200 mm 48.6 mmΦ	1	unit	Hanging load 300 kg
	(3) Left stage back	W1200 mm·H1200 mm 48.6 mmΦ	1	unit	Hanging load 300 kg
	(4) Right stage front	W1200 mm·H1200 mm 48.6 mmΦ	1	unit	Hanging load 300 kg
	(5) Right stage center	W1200 mm·H1200 mm 48.6 mmΦ	1	unit	Hanging load 300 kg
	(6) Right stage back	W1200 mm·H1200 mm 48.6 mmΦ	1	unit	Hanging load 300 kg

## (3) List of stage sets and specifications [1]

No	Equipment Name	Specification/ Model No.	Qty.	Unit	Note
01	Décor batten				
	(1) Décor batten 1	23000 mm/ 48.6 mm Φ	1	unit	Hanging load 300 kg
	(2) Décor batten 2	23000 mm/ 48.6 mm Φ	1	unit	Hanging load 300 kg
	(3) Décor batten 3	23000 mm/ 48.6 mm Φ	1	unit	Hanging load 300 kg
	(4) Décor batten 4	23000 mm/ 48.6 mm Φ	1	unit	Hanging load 300 kg
	(5) Décor batten 5	23000 mm/ 48.6 mm Φ	1	unit	Hanging load 300 kg
	(6) Décor batten 6	23000 mm/ 48.6 mm Φ	1	unit	Hanging load 300 kg
	(7) Décor batten 7	23000 mm/ 48.6 mm Φ	1	unit	Hanging load 300 kg
	(8) Décor batten 8	23000 mm/ 48.6 mm Φ	1	unit	Hanging load 300 kg
02	wooden platform	w909 × d1818 × h121	20	units	
03	909 × 1818 mm wooden platform wagon		2	units	
04	wooden platform	w1212 × d1818 × h121	20	units	
05	1212 × 1818 mm wooden platform wagon		2	units	
06	wooden platform	w606 × d1818 × h121	16	units

For simultaneous-interpreter booth					100 V, 15 A

In accordance with these Procedures, Event Management Center's stage management staff shall manage and support Event Organizers' Event Operation.

### (1) Stage management staff's duties

- 1) Stage management staff shall explain how to use permanent audio, lighting, video and other equipment, and provide support for Event Organizers in maintaining such equipment.
- 2) Stage management staff shall be responsible for operating stage machinery systems, such as elevating battens and trusses.
- 3) Regarding operation of permanent equipment, the Organizer and Event Organizers shall decide the specifics through prior consultation, in accordance with the following guidelines:
  - If Event Organizers do not carry any equipment into the Event Facility, stage management staff shall install, adjust and operate permanent equipment without charge, as arranged through prior consultation between the Organizer and Event Organizers, based on their stage effect plans.
  - Event Organizers may be permitted to operate permanent equipment with prior consultation and approval of the organizer. All real and related costs, including but not limited to translators, stagehands, etc. shall be responsibility of the Event Organizer.
  - If Event Organizers plan to use equipment carried into the Event Facility in addition to permanent equipment, the Organizer shall decide, in consultation with the Event Organizers, whether the Event Organizers or stage management staff will install, adjust and operate equipment in accordance with the stage effect plans.

Please note that the Event Organizers will not be charged for operation of such equipment by stage management staff.
  - Event Organizers planning to operate their Events using only the equipment carried into the Event Facility shall install, adjust and operate such equipment on their own.

In such case, stage management staff shall remove and reinstall permanent equipment.

In organizing and operating events, Event Organizers are required, on their own responsibility, to formulate operation and security plans appropriate to the content of the event concerned, and implement operation and security measures accordingly, to ensure visitor safety and optimize visitor information and guidance services.

### **(1) Operation and security plans**

Event Organizers are required to formulate operation and security plans in advance, according to the content of the event concerned, and to submit such plans to the Organizer for approval. Event Organizers whose operation and security plans are adjudged inappropriate by the Organizer will be required to revise said plans for re-submission.

### **(2) Event Organizers' duties**

Event Organizers are required to station appropriate personnel for operation, security, site/visitor control etc., according to the content of the event concerned, to ensure visitor safety and smooth event operation.

#### **1) Visitor control**

- Visitor control outside the entrance

Visitor control must be effected so as to prevent the formation of waiting lines outside the event facility. Should waiting lines form, appropriate control must be effected so as not to interfere with other visitor routes.

Appropriate control and guidance must be effected for visitors in waiting lines to ensure safety and order.

- Visitor control near the entrance

When visitor congestion is anticipated near the entrance, such as at the opening of site doors and immediately after events, appropriate visitor control and guidance must be effected to facilitate smooth visitor entry and ensure visitor safety.

- Inside the event facility and the foyer, safe and sufficient visitor routes must be ensured, and appropriate visitor control and guidance must be effected to ensure safety and order.
- Spectators attempting to approach the stage too closely or get on the stage must be stopped. Particularly during events in which crowding of spectators toward the stage is anticipated due to the nature of the events, sufficient control personnel must be stationed inside the event facility.
- For events likely to attract exceptionally large numbers of visitors, all seats shall be designated in advance. Refer to the section "Advance Reservation System and Seat Designation Tickets" (p. 24 - 28) for Event Organizers' duties regarding the seat designation system.

#### **2) Visitor information and guidance**

- Event Organizers are required to have an accurate grasp of event facility conditions at all times and to provide appropriate information and guidance services to visitors.
- Event Organizers are required to respond to visitor inquiries regarding event details.

#### **3) Patrol**

- Event Organizers are required to arrange for occasional patrols inside the event facility, to supervise visitor movement and watch for suspicious individuals and objects, which, if detected, must be reported to the Event Management Center staff.

#### **4) Guest relations**

- Event Organizers are required to receive, guide and accompany their own guests.

### 5) Post-event handling of handouts

- Event Organizers distributing handouts and the like in connection with their events are required to carry out thorough collection and disposal of any such materials remaining after the events.

### 6) Hand luggage inspection

- Event Organizers inspecting visitors' hand luggage for their own reasons (e.g. ban on filming and recording instruments, etc.) are required to provide temporary storage and checking service.
- Event Organizers may, at their discretion, adopt rules regarding filming and recording of the events by spectators.

### 7) Clean-up

- Event Organizers are responsible for clean-up and disposal of waste resulting from their events (see p. 43).

### 8) Others

- Responsibility for matters not mentioned above but resulting from events shall reside with the Event Organizers concerned.

## (3) Operating equipment

- Fixed event facility equipment may be used by Event Organizers (see p. 18).
- Other equipment and materials necessary for the events must be provided by the Event Organizers concerned.

## (4) Duties of Event Management Center staff

On event days, the Event Management Center operating staff and security personnel of the EXPO Hall shall perform the following duties:

### 1) Support to visitor service

- Support to visitor seating information and guidance services
- Handling of visitor inquiries regarding Exhibition Site, facilities, services etc.
- Checking and storage of visitors' baby carriages
- Guidance and accompaniment of visitors in wheelchairs
- Renting of PM-type hearing aids (Permanent exhibition at EXPO Hall)

### 2) Visitor control at site entrance

- Counting of visitors, visitor control when event facility is full (only for events adopting partial seat designation system)
- Visitor control for mid-show entry and exit (only for events adopting partial seat designation system)
  - \* Refer to the section "Advance Reservation System and Seat Designation Tickets" (p. 24 - 28) for details.

### 3) Handling of visitors with reservations

Refer to the section "Advance Reservation System and Seat Designation Tickets" (p. 24 - 28) for details.

### 4) Control only of entry/exit areas to prevent public access.

### (5) Important remarks

- 1) Event Organizers conducting visitor control and reception are required to have their personnel wear uniforms, identical jackets or name-tags for easy identification.
- 2) Instructions to Event Management Center staff (operating staff, security personnel, etc.) shall be issued by the Organizer.
- 3) Same-day event announcements and distribution of leaflets and other such materials outside the event control zone (including waiting lines outside event control zone) shall be prohibited.  
Public announcements using megaphones, loudspeakers and the like to attract visitors or advertise particular commercial operations or products shall also be prohibited.
- 4) Injuries and sudden illness among visitors, as well as equipment abnormality, must be immediately reported to the Event Management Center.
- 5) The Organizer shall reserve the right to cancel or reduce the scale of an event so as to ensure public safety and order.

### Reservation System

To enhance Exhibition visitor convenience and thereby attract more visitors, a reservation system using the innovative **mu chip** technology (admission tickets with built-in IC; hereinafter referred to as “EXPO Admission Tickets”) shall be adopted mainly for pavilions and event facilities (EXPO Dome and Hall). The reservation system shall cover all events to be held in the EXPO Hall. Event Organizers are therefore requested to gain a good understanding of this system, as it immediately concerns visitor admission to the event facility and event organization.

#### (1) Outline of the reservation system

- 1) System coverage: visitors with advance EXPO Admission Tickets
- 2) Reservation method: A visitor with an advance EXPO Admission Ticket accesses the EXPO Web site via PC or mobile telephone to reserve entry to a pavilion or event on a desired day at a desired time, by inputting the EXPO Admission Ticket ID number.
- 3) Reservations: From one month to two days before the desired date

#### (2) Event classification

For various events to be held in the EXPO Hall, the all-seat designation system shall be adopted for events likely to attract exceptionally large numbers of visitors (e.g. shows featuring famous entertainers etc.); the partial seat designation system shall be adopted for other events.

\* Event classification by either of the two designation systems shall be determined in consultation with related parties at the First Event Meeting.

## (3) Seating arrangements and operating duties by event classification

### 1) Events to which the all-seat designation system applies

The all-seat designation system shall apply to events likely to attract exceptionally large numbers of visitors.

Seat designation tickets shall be issued from several hours before the start of the event concerned, so as to minimize visitor waiting time in front of the event facility and to facilitate seating inside the event facility.

In principle, seat designation ticket issuance shall begin upon the daily opening of the Exhibition Site; further details shall be determined through advance consultation with related parties.

### (a) Seating for visitors with advance reservations

- The number of seats set aside for visitors with advance reservations shall be finalized by The Organizer after consultation with related parties.
- Seating for visitors with advanced reservations shall be better situated for viewing than seating for general visitors without reservations.

### (b) Seat designation ticket issuance site

- Seat designation tickets shall be issued only in front of the EXPO Hall entrance, and at no other site.
- The Organizer shall set up booths for issuing seat designation tickets.

### (c) Modes of visitor control

Visitors with advance reservations:	General visitors:
<p>1. Issuance of seat designation tickets From a specified time before the start of the event concerned, EXPO Admission Tickets may be inspected via reservation reconfirmation terminals (PDA) and exchanged for seat designation tickets.</p> <p>2. Entry to the event facility At the opening of the event facility, visitors shall present their seat designation tickets for entry.</p>	<p>1. Issuance of seat designation tickets From a specified time before the start of the event concerned, seat designation tickets shall be issued on a first-come, first-served basis. The issuance of seat designation tickets shall terminate once all tickets are taken.</p> <p>2. Entry to the event facility At the opening of the event facility, visitors shall present their seat designation tickets for entry.</p>

## (d) Duty-sharing for advance reservation and issuance of seat designation tickets

Duty	Event Organizers	Event Management Center staff
• Seat designation ticket preparation	○	
• Visitor control in nearby areas during issuance of seat designation tickets and entry to the event facility	○	
• Leasing and installation of seat designation ticket issuance booths		○
• Inspection of EXPO Admission Tickets of visitors with reservations		○
• Issuance of seat designation tickets (to general visitors and visitors with reservations)	○	
• Inspection of seat designation tickets upon entry to the event facility	○	
• Visitor control for mid-show entry and exit (re-entry)	○	
• Visitor control for entry after starting time	○	
• Handling of “standby” visitors (waiting for cancellations by visitors with reservations)	○	

- \* Use of the seat designation system is expected to generate “standby” visitors, whom Event Organizers are required to treat appropriately (e.g. issuance of “standby” tickets) to prevent visitor inconvenience and confusion.
- \* In principle, Event Organizers are required to admit visitors even after the start of the event; however, when this is not feasible due to the nature of the event, Event Organizers are required to take appropriate measures (e.g. advance notification to visitors in general) to prevent visitor inconvenience and confusion.

(e) Seat designation ticket

Event Organizers are required to prepare seat designation tickets for their events and to submit a sample of their seat designation tickets at the Third Event Meeting.

● Example seat designation ticket

Event Organizers are advised to contact the Organizer in advance for further details.

[Front]

<b>2005 World Exposition, Aichi, Japan</b>	Seat Number xxxxx

<p style="text-align: center;"><b>Important remarks</b></p> <ul style="list-style-type: none"><li>● This ticket is valid for one person for one admission to the event indicated on the front.</li><li>● Please keep this ticket until the end of the event.</li><li>● A lost or torn ticket is not valid and cannot be replaced.</li><li>● Admission after the start of the event may be restricted.</li><li>● Visitors who do not follow instructions of event facility personnel may be refused admission.</li><li>● Sale or purchase of this ticket is illegal and is punishable by law.</li></ul>
--

(f) Seat designation tickets for invited visitors

- Event Organizers are required to prepare and issue seat designation tickets for their invited guests in accordance with Event Organizers' guest seating arrangements.
- Event Organizers are required to make their invited guest seat designation tickets identical in appearance to those issued to general visitors.

## 2) Events to which the partial seat designation system applies

In the partial seat designation system, seats in a specified area or areas of the event facility shall be set aside for visitors with advance reservations; the remaining seats shall be left for general visitors who may freely enter and exit. In principle, the event facility shall be accessible to the public at all times, even before the start of events, including periods of preparation and rehearsal.

### (a) Seats for visitors with advance reservations

- The number of seats set aside for visitors with advance reservation shall be finalized in consultation with related parties.
- Seats for visitors with advanced reservations shall be better situated for viewing than seats for general visitors without reservations.

### (b) Seat area designation ticket issuance site

- Seat area designation tickets shall be issued only in front of the EXPO Hall entrance.

### (c) Modes of visitor control

Visitors with advance reservations:	General visitors:
<p>1. Issuance of seat designation tickets From a specified time before the start of the event concerned, EXPO Admission Tickets may be inspected via reservation reconfirmation terminals (PDA) and exchanged for seat area designation tickets.</p> <p>2. Seating guidance In the area(s) designated for visitors with advance reservations, visitors shall present their seat area designation tickets to be shown to their seats.</p>	Free entry and exit

### (d) Duty-sharing for advance reservation and issuance of seat designation tickets

Duty	Event Organizers	Event Management Center staff
• Prepare seat area designation tickets		○
• Inspection of EXPO Admission Tickets of visitors with reservations		○
• Issuance of seat area designation tickets (to visitors with reservations)		○
• Visitor control and guidance concerning area(s) for visitors with reservations		○
• Counting of visitors, visitor control when site is full		○
• Visitor control for mid-show entry and exit (re-entry)		○

\* Event Organizers who do not admit visitors before the start of events for their own reasons (e.g. for preparation or rehearsals in the closed site) are required to carry out appropriate visitor control at and around the entrance and to fulfill other related additional duties.

### (1) Seating arrangements

Event Organizers shall classify audience seats and decide the number of seats for each category, taking into consideration the following points and the area(s) designated for visitors with advance reservations as described in the previous section.

- 1) Of 28 VIP seats, a maximum of 14 seats are available to Event Organizers.

The location of VIP seats to be used shall be decided in advance, in consultation with the Organizer.

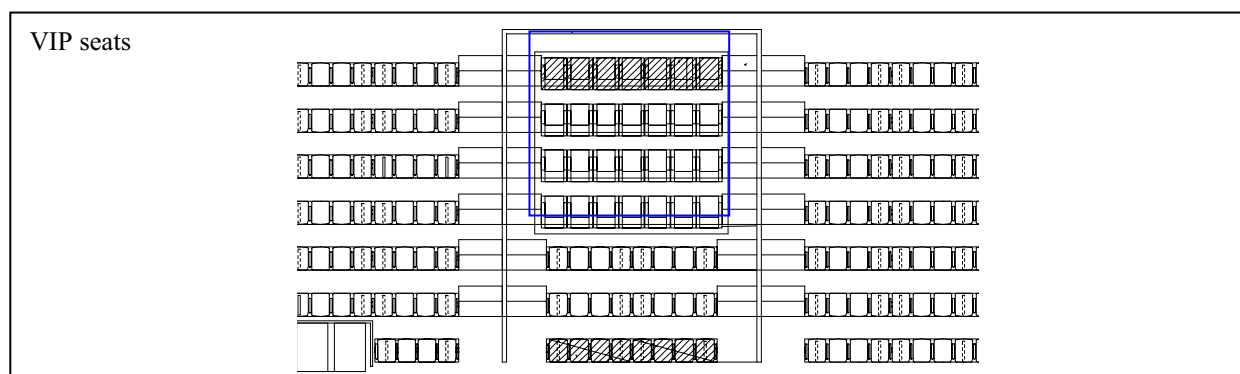

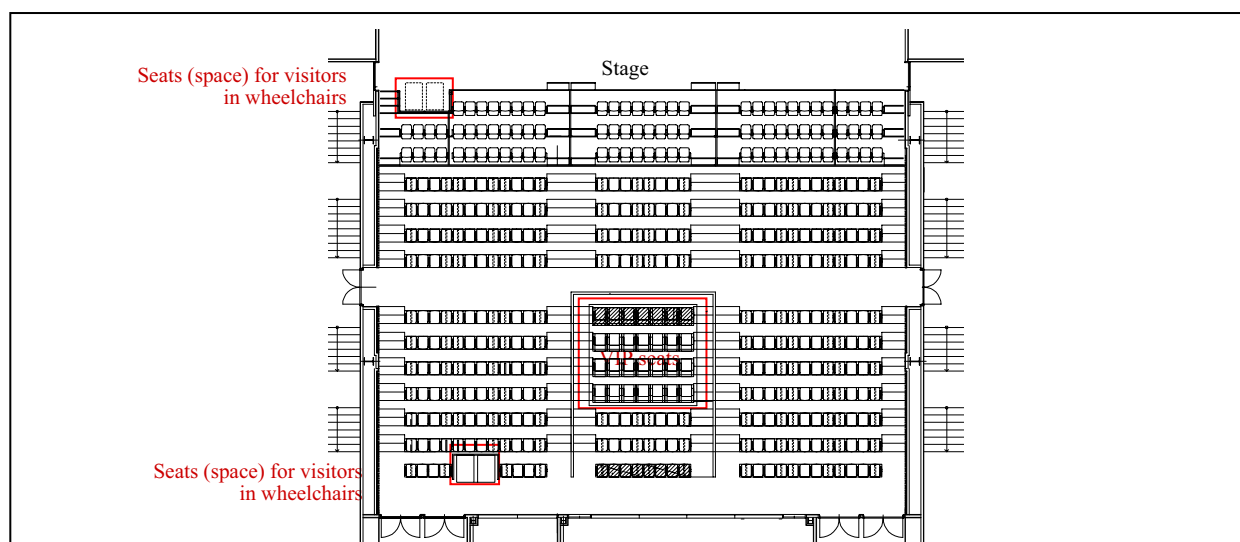

- 2) Event Organizers wishing to set aside seats for invited guests and co-sponsors in addition to the VIP seats shall decide the seat categories and manage the use of such seats on their own.

\* The location and number of such seats must be decided in advance, in consultation with the Organizer.

- 3) Seats shall be set aside for media representatives (at least ten seats), wheelchair users and attendants accompanying such persons.

\* The location of seats set aside for these visitors, and seating guidance and other procedures, shall be decided in advance in consultation with the Organizer.

- 4) Please note that the Organizer may set aside some seats for security or other reasons.

### **(2) Prohibitions in audience area**

- 1) Smoking is prohibited in EXPO Hall, even in audience area and foyer.
- 2) The consumption of food in audience seats is prohibited, in principle.
- 3) Use of nails, packing tape or double-faced adhesive tape to post paper signs and the like in EXPO Hall, including audience area and foyer, is prohibited.

\* Event Organizers may use cellophane tape and other types of tape with low adhesiveness.

Event Organizers are required to list the various articles to be carried into the Event Facility and their purpose for use in Event Operation or for special effects. The Organizer reserves the right of final approval for carry-in Articles.

Regarding articles to be brought into the Exhibition Site, there are restrictions that Event Organizers must follow. Depending on the type of the article to be carried into the Site, Event Organizers may need to apply for a permit, or submit detailed materials and specifications in advance.

Event Organizers must consult with the Organizer on their plans. If we find that Event Organizers plan to carry into the facility an article that requires permit application, we will explain the application procedures and other necessary matters regarding the article. If Event Organizers are found to have carried into the Event Facility an article not specified in their Event planning documents, the Organizer may direct such Event Organizers to immediately cease use of the article or remove it from the Exhibition Site. The Organizer will check the List of Carry-in Equipment and Materials to determine whether Event Organizers will carry into the Event Facility articles in any of the following categories:

### **(1) Radio equipment**

1) The use of Radio equipment inside the exhibition site must be approved by The Organizer. The Organizer highly discourages the request to carry-in Radio equipment from abroad due to the prohibition on the use of such equipment by the Japanese Radio law and frequency interference within the site. Event Organizers are encouraged to procure professional radio equipment locally if necessary for Event Operation.

2) To use specified low-power radios, personal radios and Type B wireless microphones, Event Organizers must obtain prior approval from the Organizer.

3) If the same channel is employed by different users when operating radio equipment, contact the Organizer promptly.

In a state of emergency, the Organizer's radio systems will take precedence over Event organizers and will restrict the use of radio equipment. In such a case, Event Organizers shall follow Organizer's instructions.

### **(2) Inflammables/dangerous objects**

For use of inflammables or similar dangerous materials, Event Organizers must consult with and receive approval from the Organizer before filing applications for permits from the local authorities. Inflammables require a permit from the relevant fire department. To use swords or similar dangerous objects, Event Organizers must obtain a permit from the police department or other authorities concerned.

### **(3) Balloons**

1) Distribution of balloons to visitors is prohibited.

2) Use of helium gas, hydrogen gas or other substances that will be emitted into the air is prohibited, even if necessary for your stage presentation.

### **(4) Lasers**

There are restrictions on installation locations and method of use. Consult with the Organizer in advance.

### **(5) Special effects equipment and materials**

- 1) Use of expanded polystyrene flakes, snow sprays, snow machines and bubble machines is prohibited.
- 2) For use of other special effects equipment and materials, consult with the Organizer in advance.

\* In general, articles described in (2) through (5) above can be used so long as permits are obtained from relevant authorities (such as fire and police departments). In this Exhibition, however, use of certain articles may be prohibited in consideration of the regulations regarding environmental impact.

If you wish to use any of the above articles, consult with the Organizer in advance.

### **(6) Projector - to be announced**

### **(7) Matting (floor cloth, ground cloth etc.)**

There are restrictions on laying carpet, the method of doing so, etc. Event Organizers are required to consult with the Organizer in advance.

### **(8) Simultaneous interpretation system**

If simultaneous interpretation is needed for the proposed Event, Event Organizers need to arrange for necessary equipment, operators, and interpreters.

Temporary simultaneous interpretation booths can be installed in the last row of audience seats.

### **(9) Telecommunications equipment for Internet use**

An optical fiber line for the Internet is available at the right wing of the stage.

Event Organizers who plan to use the Internet for their Event presentation must make arrangements for necessary downstream equipment beyond a router (the Organizer will contract the telephone carrier for B FLET'S service and will subscribe to an Internet service provider) and an operator.

Depending on how the line is to be used, Event Organizers may have to obtain prior approval from the Organizer. Consult with the Organizer in advance.

### **(10) Water and other liquid**

In principle, use of water or other liquid on the stage or in the arena etc. is prohibited.

If the use of water or other liquid is absolutely necessary for your stage presentation, consult with the Organizer in advance, since you will have to take protective measures.

### **(11) Animals**

Only when the appearance of animals is necessary for stage presentation may Event Organizers send on only trained animals. Subject to final approval by the Organizer.

\* To exhibit or use animals (limited to mammals, birds and reptiles), in accordance with the Ordinance concerning Humane Treatment and Management of Animals, Event Organizers must notify the Governor of Aichi Prefecture their intent to engage in business dealing with animals.

If the animal concerned falls under the category of dangerous animals, Event Organizers must also obtain a permit for keeping dangerous animals.

### **(12) Handouts and the like**

- 1) For all materials distributed to visitors within the Event Facility, Event Organizers must obtain prior approval from the Organizer.
- 2) Distribution of materials designed to advertise certain companies or products is prohibited. Regarding printed matter that include the names of companies, consult with the Organizer in advance (see p. 45).

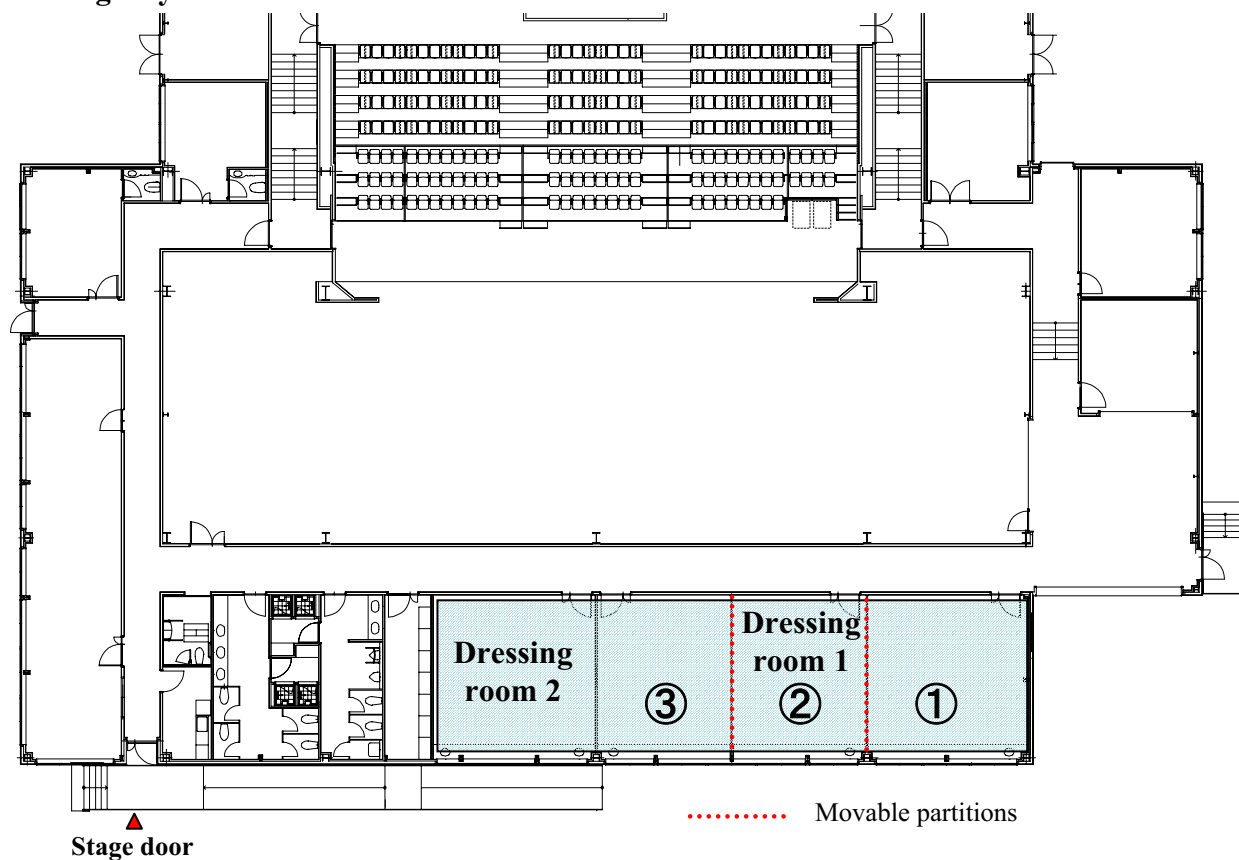

### **(13) Rigging**

Event Organizer is required to inform the Organizer on the rigging method and total weight of equipment to be rigged. Subject to final approval of the Organizer.

### **(14) Other**

If you plan to carry into the Event Facility special effects equipment and materials or other Event operation-related articles that are not specified above, check with the Organizer in advance.

## (1) Backstage layout

\* Some dressing rooms may be used for other purposes for administrative convenience.  
Some dressing rooms may be occupied due to other Events.

## (2) Specifications of dressing rooms and list of provided furniture

1F				
Name	Area		Furniture	Remarks
Dressing room 1	18 m × 7 m	126 m <sup>2</sup>	* Can be divided into three spaces by means of movable partitions.	
①	7 m × 7 m	48 m <sup>2</sup>	Monitor TV, tables, 25 chairs, makeup tables, full-length mirrors and power outlets	
②	5.5 m × 7 m	39 m <sup>2</sup>	Monitor TV, tables, 20 chairs, makeup tables, full-length mirrors and power outlets	
③	5.5 m × 7 m	39 m <sup>2</sup>	Monitor TV, tables, 20 chairs, makeup tables, full-length mirrors and power outlets	
Dressing room 2	7 m × 7 m	47 m <sup>2</sup>	Monitor TV, tables, 25 chairs, makeup tables, full-length mirrors and power outlets	

\* All the room area figures are approximate.

◆ Shared facilities: Rest rooms and coin-returnable lockers

### (3) Points to note

Please use dressing rooms with respect.

- 1) The Organizer will designate dressing rooms available to Event Organizers.  
Event Organizers shall assign rooms to users, complete the prescribed form “Dressing Room Use Plan” and submit the plan to the Organizer in advance.
- 2) Event Organizers shall do their best to protect dressing rooms and fixtures therein from damage or loss. In the case of damage to any of the fixtures or other trouble, report to the Event Management Center as promptly as possible.
- 3) The Organizer will provide a set of keys for the dressing rooms to a person designated by Event Organizers as responsible for use of said dressing rooms. Such persons shall manage the keys responsibly until they return the keys after closing of their Events. Making copies of dressing rooms keys by Event organizers is prohibited.  
In case of loss, Event Organizers shall bear the actual cost of lost keys.
- 4) To protect personal belongings and valuables against theft and loss, Event Organizers shall appoint a manager or take other precautionary measures.  
The Organizer will not be responsible for lost or stolen items.
- 5) Event Organizers can make free use of coin lockers installed in EXPO Hall.  
Event Organizers shall bear the actual cost of lost coin locker keys.  
Note: The coin lockers are free of charge. Coins inserted will be returned after use.
- 6) Consumption of alcoholic beverages is prohibited in the dressing rooms.
- 7) Smoking is allowed in some dressing rooms. For details, ask the Organizer in advance.
- 8) Event Organizers shall use dressing rooms and fixtures therein properly, as instructed by the Event Management Center staff, and shall clean such rooms after closing their Events.
  - Event Organizers shall carry out all waste generated through their use of dressing rooms (see p. 43)
  - Event Management Center staff shall inspect dressing rooms with Event Organizers for damage and cleanliness. Upon satisfactory approval, Event organizers shall return dressing room keys and prepare to depart event site.

For the entire Exhibition, the Organizer has established guidelines for barrier-free arrangements to ensure that all visitors enjoy the Exhibition.

Event Organizers are required to make every effort to realize a barrier-free Event, with the following considerations in mind:

- 1) If your Event includes a spoken explanation or lecture on the content of the performance, make arrangements for visitors with hearing difficulties so that they will not be left ill-informed.
  - Provide information via a sign language interpreter, subtitles, for example.
    - \* EXPO Hall is equipped with an FM hearing assistance system; FM receivers will be provided for the hearing impaired.
- 2) Make printed matters understandable to visually impaired and elderly visitors.
- 3) If your Event includes an explanation, lecture etc. on the content of the performance, please make arrangements to provide information in other languages to visitors.
  - Employ simultaneous interpretation system, or
  - Use an interpreter on stage, for example.
- 4) If in your Event you use video software that includes spoken explanations etc., make arrangements to ensure that visitors with hearing difficulties will understand the content.
  - Add summarized subtitles, for example.

To enter the Exhibition Site, Event Organizers must present passes issued based on their applications.

Such passes are largely categorized into two types: Accreditation Passes, which Event Organizers are required to wear; and Vehicle Passes, used for vehicles.

- \* Accreditation Passes will be issued to performers, staff members and other persons who engage in operations and works necessary for Event operation, and will not be issued to other persons (including friends, relatives, or fans of performers).

Passes must be used electronically as a rule, by inputting necessary data on electronic application forms using the Accreditation Pass Application software provided by the Organizer.

- \* Regarding how to fill out forms and other details, refer to the following explanatory materials attached to the software:

- Accreditation/Vehicle Pass Application Software [Important Information: How to use Pass Application software]
- Guideline concerning Handling of Accreditation and Vehicle Passes [Outline of handling procedures]

If you have questions regarding the application procedures, contact the Organizer.

## (1) Accreditation Pass

Accreditation Passes for Agents or for Groups are essential for Event Organizers to enter or exit the Exhibition Site. Pass holders must use one of the gates indicated on the map below.

Pass type	Pass holders
Accreditation Pass for Agents	Performers and staff members of Events
Accreditation Pass for Groups	Members of groups comprising of 10 or more persons (for example, groups of performers in Events) who enter and exit the Exhibition Site through the same gate, at the same time, for the same business purpose

\* Members of groups granted Accreditation Passes for Groups are required to wear the same uniforms, hats, nameplates etc. while in the Exhibition Site, to identify them as members of their group.

## \* Backstage Pass

- To enter EXPO Hall on the days of Events and preparations, Event Organizers must present Backstage Passes (staff identification cards) in addition to Accreditation Passes. No one without a Backstage Pass will be permitted to enter stage, dressing rooms etc. The Organizer can supply Backstage Passes to Event Organizers. If this is desired, consult with the Organizer.
- If Event Organizers plan to prepare Backstage Passes on their own, a sample of each type of pass with appropriate explanation on restrictions and usage must be submitted to the Organizer at least 2 weeks prior to Event.

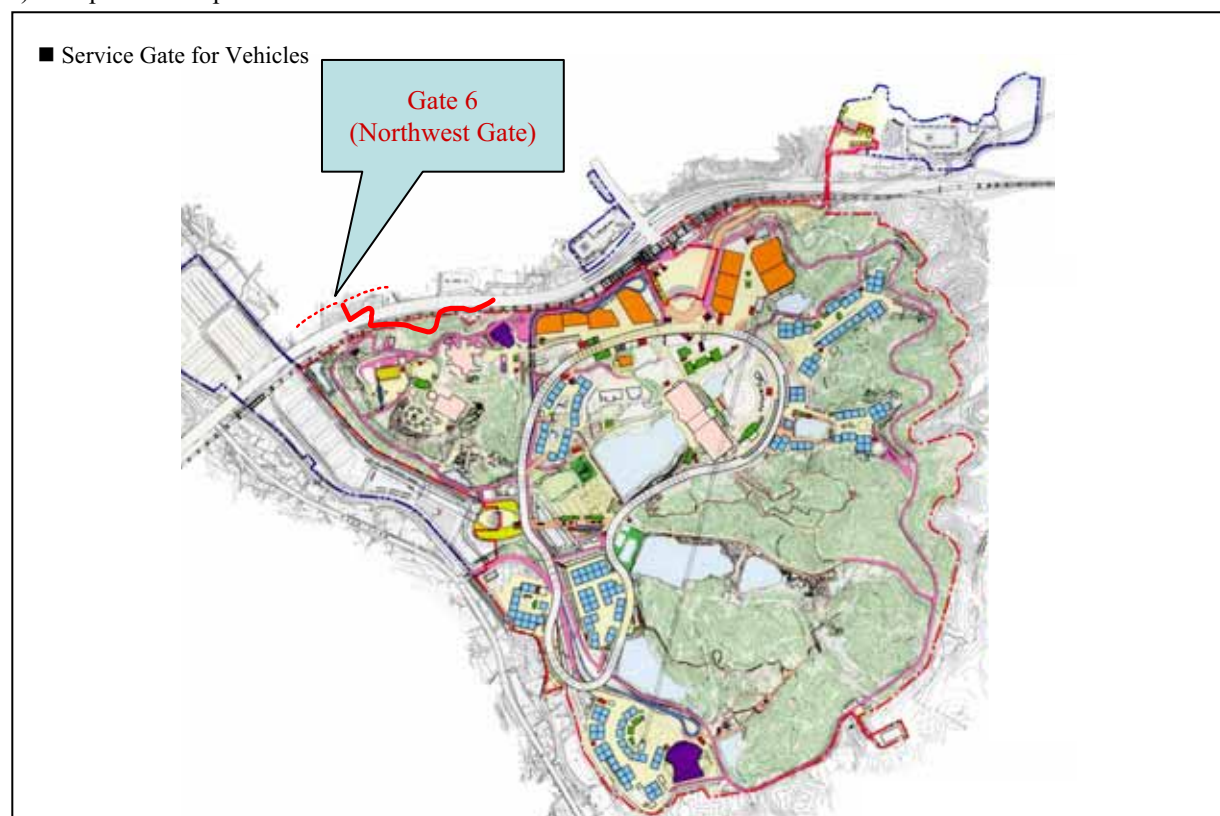

## (2) Vehicle Pass

Reservation (Confirmation) Sheet for the Carry-In of Cargo or Communication Vehicle Passes are required for vehicles to enter the Exhibition Site. Sheet/Pass holders must use the gate indicated on the map below. Application for Communication Vehicle Passes should be done by entering necessary data into the Pass Application Software provided by the Organizer. Application for Reservation (Confirmation) Sheet for the Carry-In of Cargo should be done by entering necessary data into the specific software provided by the Organizer.

Pass type	Intended vehicle use
Reservation (Confirmation) Sheet for the Carry-In of Cargo	Transportation of equipment and materials used for Events etc. Vehicles can enter, exit or travel within the Exhibition Site on a 24-hour basis (however, only during hours approved in advance)
Communication Vehicle Pass	Transportation of Event Organizers Vehicles can enter, exit or travel within the Exhibition Site on a 24-hour basis (however, only during hours approved in advance)

\*Please note that vehicles with the maximum carrying capacity above 4 tons are not allowed to drive in the EXPO site during the following time period.

- a) 25 March – 25 April: 7:00 – 9:00
- b) 26 April – 25 September: 6:30 – 8:30

## (3) On-site Parking Permit

On-site Parking Permits are essential for Event Organizers to park their vehicles in designated parking lots within the Exhibition Site (for example, parking spaces of the Event Facility). On-site Parking Permits will be issued only for vehicles the Organizer adjudges necessary for Event Operation, through prior consultation.

\* Note: On-site Parking Permits must be applied for separately, without using the Accreditation Pass Application software.  
(The electronic application form does not include sections for applicants for such permits.)

**(4) Application procedures**

- 1) Install on your computer (only Windows XP or Windows 2000) the application software provided by the Organizer.
- 2) Input necessary data to application forms.
- 3) Send completed electronic application forms and requested documents.
- 4) Passes will be issued by the Organizer at a later date.

## ■ Application and issuance procedures for Passes necessary for Event Meetings

Pass type	Procedures	
Accreditation Pass	Application	Electronic applications must be submitted no later than 14 days prior to the day of the meeting.
	Issuance	After receiving applications, the Organizer will issue Passes by the meeting day at the latest.
Vehicle Pass On-site Parking Permit	No application or issuance * Participants in Event Meetings cannot enter the Exhibition Site in vehicles.	

## ■ Application and issuance procedures for Passes valid for Event Operation days

Pass type	Procedures	
Accreditation Pass Vehicle Pass On-site Parking Permit	Explanation	Explanations at the First Meeting (two months before Event day)
	Application	Electronic applications and necessary documents must be submitted at the Second Meeting (one month before Event day)
	Issuance	After receiving applications, the Organizer will issue and hand Passes and/or Permits at the Third Meeting (two weeks before Event day)

. \*For vehicles to enter and exit the Exhibition Site, Event Organizers must obtain Vehicle Entry Appointment Cards in addition to the above passes.

**(5) Notices regarding Passes**

- 1) Passes may not be loaned or transferred.
- 2) Passes must be returned to the Organizer as soon as they become invalid due to expiry.
- 3) Passes used improperly will be confiscated, and will not be reissued to Pass holders involved in such improper use.
- 4) Accreditation Pass holders cannot use the gates for general visitors.
- 5) Persons not carrying their Accreditation Passes will be refused entry. Be sure to carry your Pass.
- 6) When specifying Event Operation days on your application form, be sure to include the days on which preparation and other necessary work for the Event will be carried out.
- 7) Loss of Accreditation Pass must be immediately reported to the Organizer.

### (6) Notices regarding carry-in/carry-out

#### 1) Gates to be used and necessary Passes

To carry into or out of the Exhibition Site large props, musical instruments and equipment (hereinafter referred to as “Cargo”) necessary for Events, Event Organizers shall use the service gate for vehicles designated by the Organizer (Gate 6).

Vehicle entry or exit at gates other than those designated shall not be allowed. Persons entering or exiting the Exhibition Site in vehicles must carry Vehicle Passes issued by the Organizer, based on their applications. In addition to a Vehicle Pass, Accreditation Passes are required for all passengers and driver.

#### 2) Event Organizers shall carry their Cargo into or out of the Event Facility either by themselves or by forwarders commissioned by the Event Organizers.

Event Organizers shall bear all expenses for such transportation.

We will not receive any Event Organizer cargo forwarded by post or via parcel delivery service directly to EXPO Hall before the start of Event Operation.

#### 3) To prevent traffic congestion and ensure safety within the Exhibition Site and around the service gate for transportation vehicles during the Exhibition period, Event Organizers are required to use cargo handlers designated by the Organizer for handling of their Cargo using cranes and fork lifts (fee charged).

However, consult with the Organizer if you have a special reason to use other cargo handlers, such as instances requiring specialized loading and unloading work, due to the nature of the Cargo.

In conducting carry-in, carry-out, installation and removal of equipment, and all rehearsals, Event Organizers shall comply with the following guidelines. Non-compliance with these guidelines may result in cancellation of actual performance.

### **(1) Scheduling**

All plans for above activities must be submitted to the Organizer for approval.

### **(2) Time restriction**

There is no time restriction on rehearsals, as a rule.

However, the Organizer will discuss it with Event Organizers (rehearsal time, loudness level etc.) and make a decision.

In carrying equipment and materials in or out, or in executing installation or other works outside EXPO Hall in the nighttime (22:00 - 7:00), special care should be taken so as not to make loud noises.

### **(3) Open/closed rehearsals**

When rehearsing during Exhibition opening hours, visitor admission to the hall may be restricted.

If rehearsal is open to visitors, attention should be paid to audience safety.

Event Organizers and the Organizer shall decide the specifics of each rehearsal through discussion.

### **(4) Prohibitions regarding stage equipment installation**

- 1) Arrangement of audio, lighting and other equipment using the ceiling section above the audience seats is prohibited, in principle.

\* If such arrangement is necessary for a stage presentation, consult with the Organizer in advance.

- 2) Driving metal braces into the stage floor to support set pieces is prohibited.
- 3) Painting the stage floor is prohibited.
- 4) Painting of permanent stage equipment, wooden platforms and box legs is prohibited.
- 5) Hanging heavy objects exceeding the capacity of décor battens is prohibited.
- 6) Event Organizers, if given other instructions regarding installation work by the Organizer, shall follow such instructions.

### **(5) Safety measures related to installation work**

For installation work in high places and installation of heavy objects or large exhibits, Event Organizers shall take necessary safety measures in accordance with relevant laws and ordinances.

### **(6) Other**

By the ordinance concerning security of the living environment of citizens of Aichi Prefecture (Aichi Prefecture's Ordinance No. 7 of 2003), which is intended to protect the lives of citizens of Aichi Prefecture and ensure the security of their living environment, persons who engage in businesses involving the assembly, testing or adjustment of sound-generating equipment (including musical instruments) and carry-in and carry-out of cargo are required to comply with the standards relating to noise and vibration. Event Organizers shall pay careful attention to the provisions of said ordinance.

After events are finished, Event Organizers shall promptly conduct the following procedures for restoring the Event Facility to its original condition, and receive verification thereof from the Organizer.

### (1) Permanent equipment and fixtures

- 1) Permanent equipment and fixtures leased from the Event Facility should be properly returned to the lender.
- 2) Be sure to return the dressing room keys.

### (2) Cleaning and removal

#### 1) Stage and areas used for events

Event Organizers shall take back with them all the instruments and equipment that they have carried in, as well as remaining materials and waste generated in relation to organizing the events. In addition, Event Organizers are required to take appropriate measures to prevent offensive odor when transporting waste (including removing waste from the Exhibition Site).

#### 2) Audience seats, foyer, entrances etc.

If the audience seats and floors have been soiled because of the event activities, Event Organizers should clean up the soiled areas accordingly. Event Organizers are also required to collect and take back with them the remaining printed materials, notices and the like that they have distributed or posted at the event venues.

#### 3) Dressing rooms

- Equipment and fixtures (tables etc.) provided for the dressing rooms used by Event Organizers should be returned to their original condition.

Event Organizers shall take back with them all the instruments and equipment that they have carried in, and waste produced at the dressing rooms in relation to organizing the events.

\* Regarding on-site disposal of waste and remaining materials

- If Event Organizers cannot take waste with them owing to unavoidable circumstances, Event Organizers should purchase the necessary number of trash bags designated by the Exhibition Organizer, classify the waste in accordance with the Organizer-specified rules using the trash bags, and transport the sorted waste to the waste sub-storage area.

\* Waste classification: 17 categories (maximum) Trash bag price: ¥105 per bag (for 90 l)

	Waste type
1	Garbage
2	Throwaway chopsticks
3	Bottles
4	Aluminum cans
5	Steel cans
6	Empty professional-use cans
7	Used kitchen oil
8	PET bottles
9	Plastics
10	Foamed polystyrene (including Styrofoam trays)

	Waste type
11	Paper cups and beverage containers
12	Cardboard boxes
13	Newspapers, leaflets
14	Magazines, brochures
15	Office equipment paper
16	Burnable waste
17	Unburnable waste

\* Listed below are waste materials that cannot be disposed of on the Exhibition Site. Be sure to take these waste materials away from the Site.

Dry cells, fluorescent lamps, throwaway lighters, handheld gas cylinders, spray cans, fire extinguishers, batteries, used tires, packaging materials, interior decoration materials, powder (powdered cement), voluminous waste etc.

### 4) Removal of instruments and equipment

After events are finished, Event Organizers are not permitted to leave within the EXPO Hall and its surrounding area any instruments and equipment they have carried in.

Event Organizers are therefore required to promptly take such instruments and equipment, as well as the relevant vehicles, out of the Site, in accordance with instructions given by the Organizer.

Event organizers must inform the Organizer if removal will take more than two hours.

### (3) Measures to ensure safe removal work

With regard to work at high elevations and work for removing heavy items or large exhibits, be sure to take safety measures in compliance with the applicable laws and regulations.

Guidelines regarding Event announcement and display of Event Organizer names shall be as follows:

Event Organizers shall submit details of these issues to the Organizer two months before proposed event day(s), and shall submit a Plan concerning Display of Names etc. to the Organizer for approval one month before proposed event day(s).

### **(1) Display of company names**

Display of company names in the following items, for example, and public relations leading to commercial activities are prohibited (unless prior approval is obtained from the Organizer):

- Event title
- Signboards, exhibits etc.
- Video production
- Public address

\* Display of company names etc. on items other than those listed above is also prohibited, in principle.

\* Event Organizers may include the names of sponsors etc. in printed matter and other materials designed to provide information on their Events, such as programs. (Requires prior approval from the Organizer.)

(Distribution of printed matter designed solely for advertising certain companies or products is prohibited.)

### **(2) Languages used**

Major items of information on Events shall be written at least in Japanese and English.

### **(3) Use of Exhibition's symbol marks, logotypes and mascot characters**

Event Organizers may use symbol marks etc. associated with the Exhibition in printed matter and other productions prepared by Event Organizers.

To use such marks, Event Organizers must submit applications to the organization shown below, to obtain prior approval from the Organizer.

#### **[Contact for inquiries regarding use of Exhibition's symbol marks etc.]**

<http://www.amlo.net>

The insurance plan for the Exhibition is intended to set forth requirements for Event Organizers to take out and maintain necessary insurance against accident or disaster that may occur within the Exhibition Site. This plan also requires that each Event Organizer waive the right to claim compensation from any other Event Organizer or from the Organizer with respect to any accident that occurs in connection with the Exhibition, unless such accident is attributable to willful act or gross negligence. This rule is provided in order to ensure smooth operation of the Exhibition.

### ■ Waiver of right to claim damages

The Regulations established for the Exhibition stipulate that each Event Organizer shall waive the right to claim compensation for any damage from the Organizer or any other participant in the Exhibition, unless such damage is caused by willful act or gross negligence.

Specifically, Article 28. 2 of the General Regulations and Article 6.1 and 6.2 of Special Regulation No. 8, established for the Exhibition, require that “no participant shall claim compensation for damage from any other participant, even if damage is caused to its exhibits or other materials due to the fault of such other participant.”

### (1) Requisite insurance for Event Organizers

Event Organizers are required to take out certain insurance policies arranged by the Organizer in connection with the Exhibition.

Especially, “Fire Insurance” must be taken out for “stage setting and properties, costumes, musical instruments and other articles brought into the Exhibition Site” by each Event Organizer (excluding fine art articles worth one million yen or higher per item), and “Movables Comprehensive Insurance” must be taken out for fine art articles worth one million yen or higher per item and all exhibits.

Event Organizers are required to submit application documents to take out these requisite insurance policies arranged by the Organizer.

#### <Fire Insurance>

Policyholder	Event Organizer
Insured objects	Properties, costumes, musical instruments and other articles brought into Exhibition Site
Covered amount	Replacement cost of insured properties
Period of insurance	From unloading from carrier to Exhibition Site until loading onto carrier for removal from Exhibition Site

#### <Movables Comprehensive Insurance>

Policyholder	Event Organizer
Insured objects	Fine art articles worth one million yen or higher per item and all exhibits controlled by each Event Organizer in Exhibition Site
Covered amount	Exhibits: Replacement cost Fine art objects: Amounts agreed upon with insurer, based on objective assessment values
Period of insurance	From unloading of insured properties onto carrying equipment in Exhibition Site until loading onto carrying equipment for removal from Exhibition Site

\* Liability for damage against any third party is covered by “Comprehensive General Liability Insurance” arranged by Organizer (Maximum: 10 billion yen per accident)

**(2) Insurance application procedures**

To provide the above-mentioned requisite insurance policies, a syndicate of EXPO 2005 Property Insurance Underwriters has been organized, comprising 16 property insurance companies selected by the Organizer, through public invitation and examination, from among insurers licensed to conduct insurance business in Japan. Among these insurers participating in the syndicate, a managing underwriter is appointed for each type of insurance. For application or detailed information on these requisite insurance policies, please contact relevant managing underwriter.

**(3) Optional insurance**

Each Event Organizer may decide at its own discretion whether to take out optional insurance policies, and with which insurers (or insurance agencies). However, the Organizer recommends taking out the following optional insurance policies:

**1) Personal accident insurance**

Event Organizer liability for damages to any third parties, such as Exhibition guests, is covered by the “Comprehensive General Liability Insurance” arranged by the Organization. However, to cover death or injury of the Event Organizer him/herself, each Event Organizer must take out personal accident insurance on his/her own.

**\* Although the Exhibition Regulations stipulate that personal accident insurance is optional, we strongly recommend that all Event Organizers take out personal accident insurance to cover death and injury of performers and other personnel related to realization of events.**

**2) Transit insurance**

Transit insurance will cover damage caused by accident, theft, breakage, etc. to exhibits and other event-necessary articles during transportation between a storehouse outside the Exhibition Site and the Exhibition Site.

This coverage may be added to the abovementioned Movable Comprehensive Insurance by paying an additional premium for special coverage.

If an Event Organizer commissions the transportation of articles to a freight forwarder, said Event Organizer may participate in insurance arranged by the freight forwarder. Please consult with your freight forwarder.

**3) In addition to these insurance policies, each Event Organizer may take out the following optional insurance as necessary:**

Automobile insurance (excess of mandatory coverage), boiler and machinery insurance, glass insurance, bond insurance, business interruption insurance, aviation insurance, marine cargo insurance, burglary insurance etc.

**If you have any questions regarding insurance, contact:**

Insurance Team, Financial Group, Japan Association for the 2005 World Exposition  
1533-1, Ibaragasama, Nagakute-cho, Aichi 480-1101 Japan  
TEL:0561-61-7362 FAX:0561-61-7607

Event Organizers must pay copyright royalty whenever they use copyrighted materials in their events. Please submit necessary application documents to the Organizer, in accordance with the following procedures:

### (1) Classification of copyrights

Music copyrights	<ul style="list-style-type: none"> <li>Live performance, replaying of records or any other similar playing of copyrighted musical pieces requires prior report to and permission from Japanese Society of Rights of Authors and Composers.</li> </ul>
Other copyrights	<ul style="list-style-type: none"> <li>Use of other copyrighted materials in exhibition or event requires prior permission from respective copyright owners.</li> </ul>

### (2) Musical copyrights

The Organizer will conclude a blanket license agreement with the Japanese Society of Rights of Authors and Composers (JASRAC) for the use of copyrighted musical pieces in the Exhibition. The Organizer will pay JASRAC royalties collected from applicable Event Organizers. Accordingly, an Event Organizer need not submit an application for permission to JASRAC for the use of copyrighted musical pieces.

#### ■ Steps from reporting to royalty payment

- 1) Report of scheduled use of copyrighted musical pieces (From Event Organizer to Organizer)  
Report Timing: By the end of the month previous to that of event concerned
- 2) Examination (by JASRAC)
- 3) Billing (From Organizer to Event Organizer)  
An account statement of royalty amount payable to JASRAC is sent by the Organizer to the Event Organizer in the month following that of the event.
- 4) Payment (From Event Organizer to Organizer)  
Royalties must be paid to the Organizer by the due date designated in the account statement.

### (3) Remarks

- 1) Use of musical pieces created originally for the Exhibition may also be subject to copyright royalty, even if the Event Organizer has paid commission fees to the composers/songwriters of such musical pieces, if the composers/songwriters register copyrights for such musical pieces.
- 2) If an Event Organizer creates musical material by using or editing CDs, tapes and other sound sources available on the market, separate permission for the use of such material must be obtained from the production companies etc. of such sound sources (peripheral copyrights). For detailed information, contact the relevant record companies directly.
- 3) Creation of lyric cards and any other similar materials on which lyrics of copyrighted songs are included is also subject to copyright royalty.

### **If you have any questions regarding the use of copyrighted musical pieces, contact:**

Chubu Region Office, Japanese Society of Rights of Authors and Composers (JASRAC)

- E-mail address: [chubu@pop02.jasrac.or.jp](mailto:chubu@pop02.jasrac.or.jp)  
(JASRAC website: <http://www.jasrac.or.jp>)

\* For detailed information on use of copyrighted musical pieces, e-mail the Chubu Region Office of JASRAC (the Japanese Society of Rights of Authors and Composers). Then, reply by email.

Major incidents that may compel event cancellation, interruption or modification (content or time) are:

- 1) Cancellation of the Exhibition itself for any reason
- 2) Traffic situation (traffic congestion, strike etc.)
- 3) Stormy weather (wind, rain, announcement of weather warning etc.)
- 4) Earthquake, or official announcement of alert/warning for Tokai Earthquake
- 5) Fire
- 6) Accident or trouble of any nature
- 7) Situation hinders implementation of event in EXPO Hall (Equipment trouble, power failure etc.)
- 8) Performer condition (Illness, injury etc.)
- 9) Inappropriateness of event, in opinion of Organizer (event contradictory to Exhibition Regulations etc.) and
- 10) Any other situation Organizer deems hindrance to smooth operation of Exhibition

If any of the situations listed above or any other similar situation arises, the Organizer and the Event Organizer should promptly consult to make a final determination on realizing the event.

If an event is canceled, interrupted or modified (content or time) for unavoidable reason, the Event Organizer must follow instructions given by the Organizer, including instructions for subsequent procedures.

Postponement of an event is not permitted, in principle.

The Association has promoted measures to address global warming issues and various other environmental conservation measures, aiming at “Development for Eco-Communities,” one of the sub-themes of the Exhibition. As well, in cooperation with all participants the Association intends to propose possible solutions to global-scale environmental problems, through various exhibitions and events. Event Organizers are also requested to take the following measures for environmental conservation.

### **(1) Promotion of waste generation reduction, waste material reuse, and appropriate treatment and disposal**

#### 1) Separate waste collection

#### 2) Environmental measures regarding waste transportation at the Exhibition Site

#### 3) Ensuring removal of hazardous waste from the Site

#### 4) Use of biomass plastic products

The Organizer has encouraged the use of products made of biomass plastic, an environmentally responsible material.

#### 5) Reduction of packaging materials and their reuse

In transporting articles, Event Organizers are requested to use simplified packaging to the extent possible. After transportation, be sure to take used packaging materials away from the Site.

#### 6) Environmental considerations regarding printed literature

For brochures and other literature to be distributed concerning events, Event Organizers should employ recycled paper and other recyclable materials, and reduce their volume.

#### 7) Use of environmentally responsible materials, leasing of materials and equipment

When purchasing certain articles to be used for events, Event Organizers should select items with low environmental impact, in reference to the criteria for the designated procurement items stipulated in the Law concerning Promotion of Procurement of Eco-Friendly Goods and Services by the State and Other Entities (Law on Promoting Green Purchasing), where applicable. In addition, Event Organizers are requested to use leased or rented articles whenever possible.

#### 8) Use of the manifest system

Event Organizers shall use the manifest system when commissioning a third party to treat/dispose of any reusable/recyclable waste materials, and waste destined for landfills (unburnable waste and unburnable residue) resulting from their event activities. The commissioned company must be instructed to devise appropriate measures for controlling air pollution, offensive odor, vehicle noise, vibration and other forms of pollution and nuisance that might otherwise result from transportation.

\* Manifest system: A system for ensuring that waste producers (Event Organizers) can manage and keep track of the flow of industrial waste treatment or disposal. Waste producers who entrust transport/disposal of industrial waste to professional companies should issue a manifest document (industrial waste management sheet) after filling in the name and quantity of such waste, the waste transporter's name, the disposal company's name and other information.

### **(2) Promotion of global warming prevention measures by greenhouse gas emission control**

- 1) Promoting use of public transportation systems  
Event Organizers should, to the extent possible, use public transportation systems and dedicated buses to come to the Exhibition Site.
- 2) Thorough environmental considerations regarding automobile use  
Event Organizers are required to drive vehicles in an environmentally responsible manner, by strictly avoiding sudden acceleration, abrupt starting and idling, and by adhering to driving speed regulations. They are also requested to use low-emission vehicles and vehicles that conform to the latest environmental quality standards, to the extent possible.
- 3) Implementation of energy- and resource-saving measures in Site management  
Event Organizers are requested to implement measures to save water and paper when using facilities and equipment at the Site.

### **(3) Other initiatives for reducing environmental impact that may arise from organizing the Exhibition**

- 1) Thorough environmental considerations regarding the use of chemical substances  
In principle, the use of equipment made from wood treated with hazardous chemical substances is prohibited. For painting on the Site, water-soluble paint should be used wherever possible.
- 2) Measures to avoid negative impact on flora and fauna  
To protect important fauna and flora, unnecessary passage outside the permitted areas at the Exhibition Site is strictly prohibited.

## 1. Outline of Exhibition

### ◇ Titles

Official: The 2005 World Exposition, Aichi, Japan

Abbreviated: EXPO 2005 AICHI, JAPAN

### ◇ Theme: Nature's Wisdom

### ◇ Sub-themes:

Nature's Matrix

Art of Life

Development for Eco-Communities

### ◇ Concept: Grand intercultural symphony

### ◇ Duration:

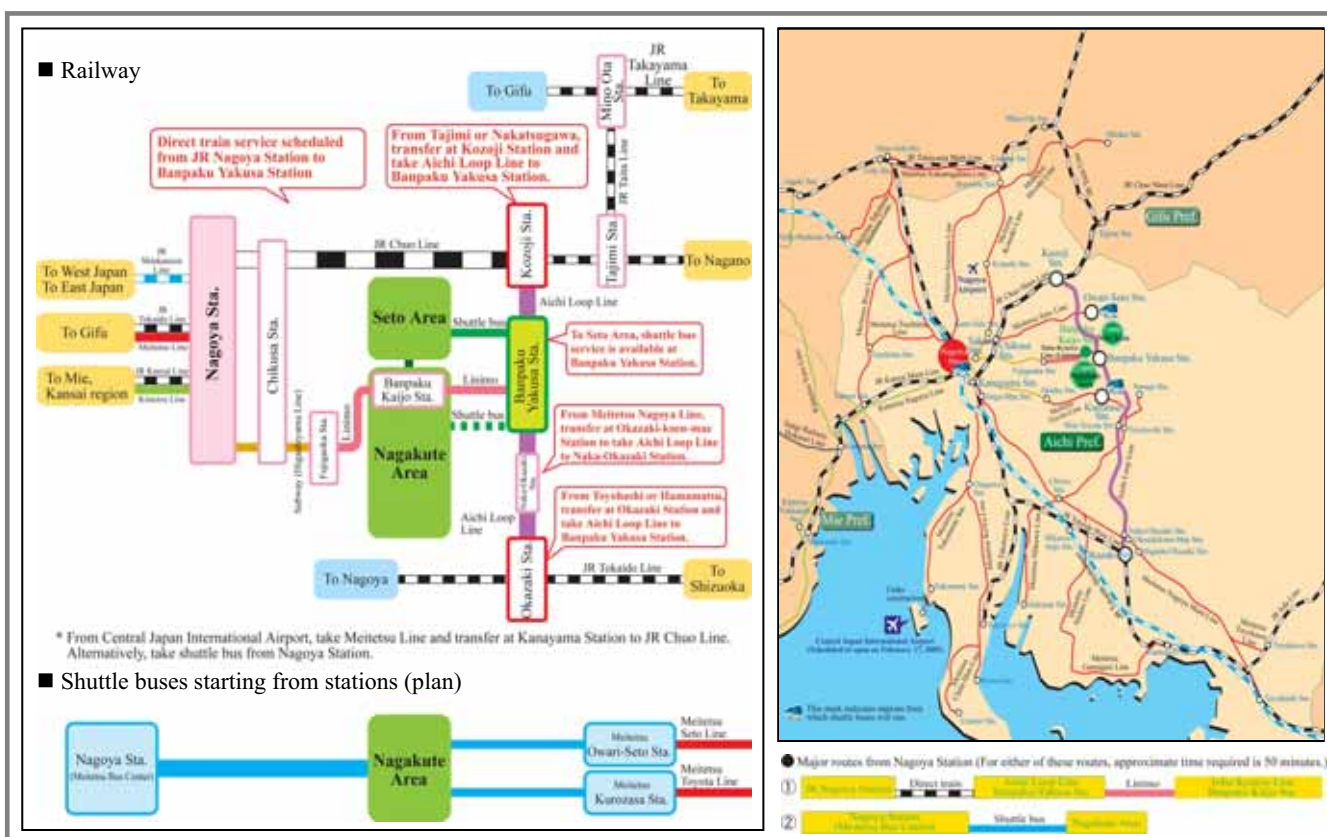

25 March – 25 September, 2005 (185 days)

### ◇ Opening hours:

25 March – 25 April, 2005: 9:30-21:30

26 April – 25 September, 2005: 9:00-22:00

### ◇ Access

Japan Keirin Association provided financial assistance for production of this booklet.
